

## **A new way to revitalize naturally the face and the neck of female patients**

### **Aged between 45 and 70**

The face and the neck can be revitalized naturally by using the following products:

MADE<sup>®</sup> and Guna<sup>®</sup>-Collagen (Collagen D6<sup>®</sup>) for skin rejuvenation, anti-aging and wrinkles,

MADE<sup>®</sup> and Omeoformula<sup>®</sup> 3 for skin rejuvenation, anti-aging and skin toning up (natural bio-lifting),

Omeoformula<sup>®</sup> 1 and Omeoformula<sup>®</sup> 3 for localized adiposity and skin toning up of double-chin.

For many years I use also MADE<sup>®</sup> and Omeoformula<sup>®</sup> 4 to treat the face and the neck of women aged between 45 and 70.

The use of MADE<sup>®</sup> and Omeoformula<sup>®</sup> 4 is very interesting and important as well for these patients.

At first glance using a product that has been specifically studied for breast toning may seem to be unsuitable to treat the face and the neck.

Nevertheless, if we carefully read the composition of Omeoformula<sup>®</sup> 4 we can immediately see that many of them are useful to stimulate the P.N.E.I. axis and any skin tissues too:

**Adenosintriphosphate and cis-aconitic acid:** promote cellular respiration

**Embryo:** revitalizing action on skin tissues and toning action on muscles (masseter and risorius muscles, musculus mentalis and zygomaticus)

**Hypophysis and Uterus:** act on P.N.E.I. axis and on the skin (antiaging action)

**Cutis:** organ preparation that stimulates the skin trophicity

**Pulsatilla:** Detoxifying action on skin tissues

I often use this pharmacological cocktail especially on female patients aged between 45 and 70.

The final results are excellent from the very early sessions.

Moreover, cosmetic results as well as mood and energy improvements are clearly visible in these patients.
