

# RADON FAN MITIGATION

MODEL: RDK04, RDK04-3, RDN04, RDN04-3

## PROTECT YOUR HOME FROM RADON WITH A SUNCOURT® RADON MITIGATION FAN

Radon is a deadly gas that can easily accumulate in your newer or older home, whether you have a full or partial basement, crawl space, or cement slab. Sub-slab depressurization is a recommended solution to reduce radon levels in homes.

### Housing

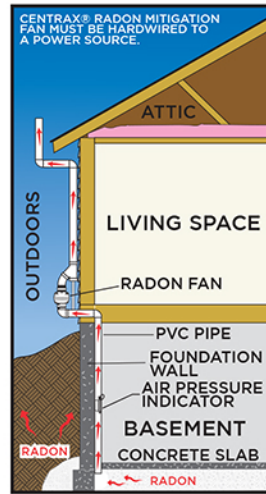

- UV resistant, UL 94VO
- Epoxy sealed for performance and durability
- Watertight
- 4" input/output

### Motor

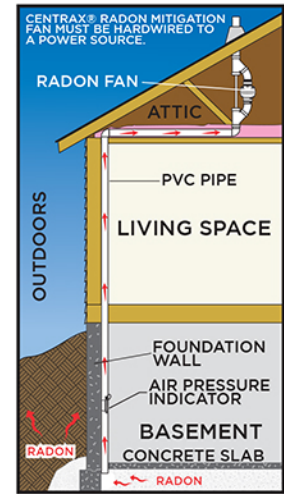

- Enclosed for protection
- Automatic thermal reset for overload protection
- High efficiency impeller

- Effective solution to reduce radon in your home.
- Quiet motor generates high volume and pressure
- UL listed for continuous use and indoor/outdoor operation
- Proprietary impeller design builds high suction and force suitable for sub-slab depressurization
- Anti-vibration PVC couplers are included
- Comes with complete installation kit
  - (1) 4" Centrax® Centrifugal Fan
  - (2) Anti-vibration PVC Couplers
  - (1) Air Pressure Indicator
