#### **GUARANTEED ANALYSIS**

SOLUBLE POTASH (K<sub>2</sub>O)......5.0% Derived from: Potassium Hydroxide ALSO CONTAINS NON-PLANT FOOD INGREDIENT(S)

8.0% Humic Acid (Derived from Leonardite)

Information regarding the contents and levels of metals in this product is available on the internet at http://aapfco.org/metals.html.

Manufactured and Guaranteed by Greene County Fertilizer Company, Inc. PO Box 1346 • Greensboro, GA 30642 1-855-606-3378 • greenecountyfert.com

Packaging: 1.0 gal bottle and 2.5 gal bottle

#### PRODUCT DESCRIPTION:

**N-Ext** Air-8<sup>™</sup> Liquid Aeration is designed to break up and loosen topsoil and encourage deeper rooting to drive more oxygen into the topsoil profile. By utilizing key bio-stimulants and highly oxidizing material at key growth stages, **N-Ext** Air-8<sup>™</sup> will give you the "Breakthrough" you've been looking for in in the health of your lawn.

Mechanical Aeration only addresses a small portion of the soil surface leaving 80% of the soil undisturbed. Driving roots deeper will crack the rest of the soil and with the aid of powerful oxygen adding ingredients, *N-Ext* Air-8™ will provide a dynamic shift in the soil.

#### APPLICATION RECOMMENDATIONS:

Product is intended to be used as an additive to current fertilizer program.

We recommend applying it at a rate of 6-9 ounces per 1,000 sq. ft. in spring or fall. However, liquid aeration can be done anytime during the growing season.

Consult your Account Rep. for application recommendations specific to your growing zone.

For info. about the products, visit greenecountyfert.com/diy

Always read and follow label directions.

#### **Directions • Storage & Handling:**

**SHAKE WELL!** The mixed product should be agitated prior to and during application.

**Tank Mixing:** Apply at a minimum rate of 6 ounces per 1,000 sq. ft. and a maximum rate of 9 ounces per 1,000 sq. ft. Dilute with enough liquid to cover 1 acre. Do not apply with less than 7:1 dilution with water. Apply in spring or fall; however, liquid aeration can be done anytime during the growing season. Product is safe for use on all turf types and ornamental plants.

Mixing with Fertilizers: *N-Ext* Air-8<sup>™</sup> can be mixed with liquid fertilizers. Apply in this order: 1) Water, 2) *N-Ext* Air-8<sup>™</sup>, 3) Water Soluble or Liquid Fertilizer.

#### Mixing with Pesticide, Herbicide or Fungicide:

**N-Ext** Air-8<sup>™</sup> can be mixed with pesticides, herbicides and fungicides and applied. We recommend the following: Use the product within 24 hours of mixing products (especially with fungicides). Do not over-apply pesticides, herbicides or fungicides as they can have an adverse effect on the populations of soil organisms.

**Store** in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

**Caution: Apply** only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. This product may stain concrete, wood and other pervious and impervious surfaces.

**Keep out of Reach of Children:** If product comes in contact with skin or eyes, flush with water immediately.

N-Ext Air-8™ is designed to break up and loosen topsoil and encourage deeper rooting to drive more oxygen into the topsoil profile.
