1.0 qt = 2.4 lbs at 68° F
net volume 1.0 qt (.95 l)

DIY Directions to Use

*Do not apply to foliage if temperatures are above 80° F or below 40° F.
Avoid direct contact with flower blooms to prevent staining.*

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Healthy Trees: Apply at a rate of 1/2 oz. per caliper inch of the diameter at shoulder height. Dilute with water at a rate of 6 oz. per gal. Spray the trunk of the tree up to a height of 6 ft. or to the first fork. Apply two times/yr. in spring and fall

Sick or Diseased Trees: Apply at a rate of 1 oz. per caliper inch of diameter at shoulder height. Dilute at a rate of 6 oz. per gal. of water. Spray the trunk of the tree up to the height of 6 ft. or to the first fork. Apply every 30 days as needed.

Fruit Trees: Apply at 1/2 oz. per caliper inch of the diameter at shoulder height before fruit sets. Dilute at 6 oz. per gal. of water. Spray trunk to a height of 6 ft. or to the first fork. No application after fruit sets.

Plants and Ornamentals: Apply at a rate of 6 oz. per 1,000 sq. ft. of bedding material. Dilute at a rate of 6 oz. per gal. of water; apply as a mist to foliage or as a soil drench at the base of the plant.

Palms: Apply at a rate of 1 oz. per caliper inch of diameter at shoulder height. Dilute at a rate of 6 oz. per gal. of water. Apply as a soil drench at the base of the palm.

Potted Plants and Vegetables: Dilute at 1 oz. per gal. of water and apply weekly as a light soaking to the base of the plant.

SDS & Labels

Store in a cool dry place away from sunlight. Product will store for 2 yrs. in normal warehouse conditions.

Compatibility: These concentrated materials are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Conduct a jar test as needed to ensure compatibility before tank mixing.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn/garden.

Caution: This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply only** to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms.

Keep out of reach of children. If product comes in contact with skin or eyes flush with water immediately.

PRODUCT DESCRIPTION

4-0-2 FloraGreen™ Fertilizer is engineered to be a complete product for all varieties of landscape plants, ornamentals, tropicals, shrubs, and trees.

APPLICATION RECOMMENDATIONS

While soil application is acceptable, **4-0-2** is formulated for foliar application.

- **4-0-2 FloraGreen™** will absorb through leaf, stem, and cambium tissue and be distributed to the roots through the circulatory systems of plants, ornamentals, shrubs, and trees.
- Application rates of **4-0-2** are very low.
- There is no risk of tissue burn.
- Product can stain. Special care should be taken when applying near homes or hard-scapes.

PACKAGING: 1.0-gal bottle and 2.5-gal bottle

Always read and follow label directions.

DIY Directions • Storage & Handling

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Do not apply to foliage if temperatures are above 80° F or below 40° F.

Healthy Trees: Apply at a rate of 1/2 ounce per caliper inch of the diameter at shoulder height. Dilute with water at a rate of 6 ounces per gallon. Spray the trunk of the tree up to a height of 6 feet or to the first fork. Apply two times per year in the spring and fall.

Sick or Diseased Trees: Apply at a rate of 1 ounce per caliper inch of diameter at should height. Dilute at a rate of 6 ounces per gallon of water. Spray the trunk of the tree up to the height of 6 feet or to the first fork. Apply every 30 days as needed.

Fruit Trees: Apply at 1/2 ounce per caliper inch of the diameter at shoulder height before fruit sets. Dilute at 6 ounces per gallon of water. Spray trunk to a height of 6 feet or to the first fork. No application after fruit sets.

Plants and Ornamentals: Apply at a rate of 6 ounces per 1,000 sq. ft. of bedding material. Dilute at a rate of 6 ounces per gallon of water; apply as a mist to foliage or as a soil drench at the base of the plant. Avoid direct contact with flower blooms to prevent staining.

Palms: Apply at a rate of 1 ounce per caliper inch of diameter at shoulder height. Dilute at a rate of 6 ounces per gallon of water. Apply as a soil drench at the base of the palm.

Potted Plants and Vegetables: Dilute at 1 ounce per gallon of water and apply weekly as a light soaking to the base of the plant. Avoid direct contact with flower blooms to prevent staining.

Storage: in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

Caution: This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply** only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms.

Keep out of Reach of Children: If product comes in contact with skin or eyes, flush with water immediately.
