net volume 1.0 gal (3.8 l)

**Compatibility:** These concentrated materials are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Conduct a jar test as needed to ensure compatibility before tank mixing. Mix in spray tanks with water and proper agitation.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn/garden.

**Caution:** This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply only** to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms.

**Keep out of reach of children.** If product comes in contact with skin or eyes flush with water immediately.

PACKAGING: 1.0 gal bottle and 2.5 gal bottle

### PRODUCT DESCRIPTION

**7-0-0 GreenNe Effect™ Turf & Ornamental Fertilizer Plus 6% Iron** is a simple and economical way to correct chlorosis issues in turf and ornamentals. Our iron is chelated with citric acid to form an organic chelation bond. This bond allows for a consistent greening effect on chlorotic plants and provides a deep green color to turf.

### APPLICATION RECOMMENDATIONS

- The low level application rate makes the **7-0-0** product ideal as an additive to summer time application of fertilizer, or as a stand-alone product for certain application(s) during the growing season.
- Rates will vary depending on type of application from 3 ounces per thousand to 12 ounces per 1,000 sq. ft.

### DIY Directions • Storage & Handling

**SHAKE WELL!** *The mixed product should be agitated prior to and during application.*

**Warm Season Turf:** Apply as an additive to regular fertilization program during summer months at a rate of 8 ounces per 1,000 sq. ft. for chlorotic or iron deficient plants. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

**Cool Season Turf:** Apply at a rate of 8 ounces per 1,000 sq. ft. for chlorotic or iron deficient plants. Mix with water at a minimum 7:1 dilution. Apply directly to foliage.

**Storage:** Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

**Caution:** This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and impervious surfaces. **Apply** only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms.

**Keep out of Reach of Children:** If product comes in contact with skin or eyes, flush with water immediately.

Always read and follow label directions.
