**Compatibility:** These concentrated materials are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Conduct a jar test as needed to ensure compatibility before tank mixing. Mix in spray tanks with water and proper agitation.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service.

Observe any State or Local fertilizer application regulations.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn/garden.

In Virginia, this lawn fertilizer, which contains phosphorous, is intended only for nonagricultural use on (i) turf during its first growing season, (ii) turf areas being repaired or renovated, and (iii) turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not intended for the routine maintenance of turf.

**Caution: Apply only to turf and soil.**

**Keep out of reach of children.** If product comes in contact with skin or eyes flush with water immediately.

**PRODUCT DESCRIPTION:** 16-21-2 GreenePOP™ Starter Fertilizer is engineered to deliver all that grass seed needs to get growing quickly and start it's life on the right footing. The combination of nitrogen, phosphorus, and potassium Humic, Fulvic acid and sea kelp delivered with GreenePOP™ will feed the newly rooting turf as well as prepare the soil around the seed for quicker germination. GreenePOP™ can also be used for Phosphorus deficient soils or used in a balanced fertility program on all turf types. GreenePOP™ Starter Fertilizer can be applied directly on top of seeds at time of planting, applied pre-plant, or incorporated with a topdressing medium.

PACKAGING: 1.0-gal bottle and 2.5-gal bottle

Always read and follow label directions.
