Packaging: 1.0 gal bottle and 2.5 gal bottle

**PRODUCT DESCRIPTION:**

**N-Ext RGS™ Soil & Plant Stimulant** is designed to increase rooting and decrease stress pressure caused by heat and drought. The biologically active material contains Humic Acid and Sea Kelp to aid in initial spring green up, to buffer and extend nitrogen release rates, and to add oxygen to the soil profile for greater nutrient uptake.

**APPLICATION RECOMMENDATIONS:**

Product is intended to be used as an additive to current fertilizer program.

Apply a minimum of two times per year at a minimum rate of 3 ounces per 1,000 sq. ft. and a maximum of 6 ounces per 1,000 sq. ft. Apply in the early spring with pre-emergent application or with first nitrogen application. Second application should be with fall fertilizer. Product can be applied year-round at 3 ounces per 1,000 sq. ft. Do not exceed 3 ounces when daytime temps are above 85 degrees.

Can be readily applied with lower volume, ride-on equipment without “clogging” issues or requiring sprayer modification.

Consult your Account Representative for application recommendations specific to your growing zone.

Always read and follow label directions.

Greene County Fertilizer Company, Inc. All Rights Reserved 2014-2019

**Directions • Storage & Handling:**

**SHAKE WELL!** *The mixed product should be agitated prior to and during application.*

*Do not exceed 3 ounces when daytime temps are above 85 degrees.*

**Tank Mixing:** Apply at a minimum rate of 3 ounces per 1,000 sq. ft. and a maximum rate of 6 ounces per 1,000 sq. ft. Dilute with enough water to cover 1 acre. Do not apply with less than a 7:1 dilution with water. Product is safe for use on all turf types and ornamental plants.

**Mixing with Fertilizers:** **N-Ext RGS™** can be mixed with liquid fertilizers. **Apply in this order:** 1) Water, 2) **N-Ext RGS™**, 3) Water Soluble or Liquid Fertilizer.

**Mixing with Pesticide, Herbicide or Fungicide:** **N-Ext RGS™** can be mixed with pesticides, herbicides and fungicides and applied. **We recommend the following:** Use the product within 24 hours of mixing products (especially with fungicides). Do not over-apply pesticides, herbicides or fungicides as they can have an adverse effect on the populations of soil organisms.

**Storage:** Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

**Caution: Apply** only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. This product may stain concrete, wood and other pervious and impervious surfaces.

**Keep out of Reach of Children:** If product comes in contact with skin or eyes, flush with water immediately.

# N-Ext RGS

Concentrate  
Soil & Plant Formula

## DIY Directions For Use

*Do not exceed 3 ounces when daytime temps are above 85 degrees.*

**SHAKE WELL!** *The mixed product should be agitated prior to and during application.*

**Tank Mixing:** Apply at a minimum rate of 3 ounces per 1,000 sq. ft. and a maximum rate of 6 ounces per 1,000 sq. ft. Dilute with enough water to cover 1 acre. Do not apply with less than a 7:1 dilution with water. Product is safe for use on all turf types and ornamental plants.

Product is intended to be used as an additive to current fertilizer program. The mixed product should be agitated prior to and during application.

**MIXING WITH FERTILIZERS:** N-Ext RGS™ can be mixed with liquid fertilizers.

**Apply in this order:** 1) Water, 2) N-Ext RGS™, 3) Water Soluble or Liquid Fertilizer.

**Mixing with Pesticide, Herbicide or Fungicide:** N-Ext RGS™ can be mixed with pesticides, herbicides and fungicides and applied. We recommend the following: Use the product within 24 hours of mixing products (especially with fungicides). Do not over-apply pesticides, herbicides or fungicides as they can have an adverse effect on the populations of soil organisms.

**Storage:** Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions.

**Compatibility:** These concentrated materials are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Conduct a jar test as needed to ensure compatibility before tank mixing. Mix in spray tanks with water and proper agitation. Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

**Caution:** Apply only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms. This product may stain concrete, wood and other pervious and impervious surfaces.

**Keep out of reach of children.** If product comes in contact with skin or eyes flush with water immediately.
