

8-0-3 Natural Base Fertilizer FORTIFIED Soil Amendment

COVERAGE: 18 lbs pounds of 8-0-3 Natural Base Fertilizer Fortified Soil Amendment covers 6,000 sq. ft. at the application rate of 3.0 lbs. of product per 1,000 sq. ft.

GUARANTEED ANALYSIS

Total Nitrogen (N)	8.00%
3.52% Urea Nitrogen	
1.62% Ammoniacal Nitrogen	
2.86% Water Insoluble Nitrogen	
Soluble Potash (K₂O)	3.00%
Calcium (Ca)	9.62%
Sulfur (S)	10.82%
10.82% Combined Sulfur	
DERIVED FROM: Feather Meal, Soybean Meal, Wheat Flour, Urea, Ammonium Sulfate, Sulfate of Potash, Gypsum, Plant (Wheat) Protein Hydrolysates	
SOIL AMENDMENT GUARANTEE	
ALSO CONTAINS NONPLANT FOOD (ACTIVE) INGREDIENTS:	
Humic Acids (derived from Leonardite)	1.00%
Kelp Extract	0.25%
TOTAL % OF OTHER INERT INGREDIENTS	98.75%
	F1612

HUMIC ACIDS: Condensed organic material that improves soil structure, promotes root growth, increases the soils ability to hold water and nutrients, and creates a better living environment for microbes.

KELP EXTRACT: Improves resistance to heat, cold, salt and drought stresses.

PLANT (WHEAT) PROTEIN HYDROLYSATES: Provides amino acids to optimize plant performance and improve stress recovery cycles.

CALCIUM (Ca): Binds organic and inorganic substances in the soil and promotes strong cell walls.

Feather Meal, Soybean Meal, Wheat Flour: Natural sources of nitrogen that are rich in protein.

DIRECTIONS FOR USE:

Soil Fit 8-0-3 Natural Base Fertilizer Fortified Soil Amendment is natural based and fortified for success. With an 8-0-3 analysis you'll get nutrition and greening, all while fortifying your soil with humic acid, stress reducing kelp extract and all important plant (wheat) protein hydrolysates, a natural source of amino acids (the building blocks of life).

Applications of Soil Fit can be made anytime of year as long as the turf is actively growing. Water in with 1/4" of irrigation or rainfall within 48 hours of application.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk, or street, back onto your lawn.

Spreader Settings 3 lbs/1,000 sq ft:

SCOTT'S ELITE	SCOTT'S EDGUARD DLX	SCOTT'S EDGUARD MINI	EARTHWAY 2600 A PLUS	EARTHWAY 2050	LESCO
4	4	4	16	14	14

Application with rotary or pendulum spreaders is recommended for uniform distribution. The use of a drop spreader is not recommended. Consult your spreader manual or spreader manufacturer to determine spreader settings to achieve application rates desired. You may need to adjust the setting depending on the walking speed, spreader condition, and product.

DIRECTIONS FOR USE (Ornamentals):

For new landscape plantings, evenly apply up to 3 lbs. per 500 sq. ft. depending on crop and soil analysis. Work into the soil to a depth of 6 inches. Once plants are established apply additional fertilizer based on County Extension Service recommendations. Apply fertilizer evenly and do not apply fertilizer directly to plant foliage or stems. Water in after application.

For shrubs, spread fertilizer evenly at a rate of up to 1.2 lbs. per 100 sq. ft. of bed area. The fertilizer should be kept away from the base of shrubs. Water in after application.

For trees (including palm), apply 1 lbs. of fertilizer per inch of trunk diameter at chest height (4" diameter tree = 4 lbs. of fertilizer) evenly under the canopy of the tree. An alternate method is to auger holes 6 to 8 inches deep in a grid pattern. Keep holes at least 3 ft. from the base of the tree. Place fertilizer in holes, evenly applying the appropriate amount of fertilizer under the canopy of the tree using 1 lbs. per inch of trunk diameter at chest height (a 4" diameter tree would require a total of 4 lbs. of fertilizer). Then finish filling the holes with dirt. Using either method, no more than 6 lbs. of fertilizer per application should be used per 1,000 sq. ft. of ground area. Water in after application.

NOT FOR USE IN PLANTS GROWN IN CONTAINERS OR NURSERY PRODUCTION

WARNING

KEEP OUT OF THE REACH OF CHILDREN

Causes eye irritation. Causes skin irritation. Harmful if inhaled. Harmful if swallowed. Wear protective gloves and other clothing to prevent exposure. Wash thoroughly after handling. Avoid breathing dust. Use only outdoors or in a well-ventilated area. Keep container tightly closed.

IF ON SKIN: Wash with plenty of water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice/attention.

IF IN EYES: Rinse cautiously, with plenty of water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a **POISON CENTER** or doctor if you feel unwell. If medical advice is needed, have product container or label at hand. Dispose of contents by utilizing as directed on this label, or call your local solid waste agency for disposal instructions. Dispose of empty container, out of reach of children.

Storage: Store in original container, out of reach of children.

In the state of Florida: Apply only to actively growing turf.

Check with your local Cooperative Extension Agent to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.

Do not apply this product to Centipede grass in the north more than 3 time during the spring and summer months combined, and no more than 5 times to all other grasses during the spring and summer months combined. Do not apply more than 3 times to all grasses during the fall and winter months combined. In north Florida, do not apply this product in the winter.

In the state of MD, NH, NJ, PA, and VA DO NOT exceed 0.70 LBS. of Nitrogen per 1,000 SQ FT.

Typically, a lawn utilizes 1 to 4 lbs. of Nitrogen per 1,000 SQ. FT. per growing season. When applied as directed, this product provides 0.24 lbs. of nitrogen per 1,000 SQ. FT. Contact your local Extension Service for information specific to your geographic region.

WARRANTY:

Turf Care Supply, LLC warrants that this product conforms to the analysis on its label. When used in accordance with label directions, under normal conditions, this product is reasonably fit for its intended purposes. Since time, method of application, weather, plant and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.

Information concerning the raw materials contained in this product can be obtained by writing to: Turf Care Supply, Attn: EHS / 50 Pearl Road, Suite 200 / Brunswick, Ohio 44212, referring to the item number found on this bag.
