“**Classic**” is the standard size modern 11.5” fashion doll. It includes most Barbies since the early 2000s, as well as most other fashion doll lines (non-Hasbro made Disney princesses are made in this size)

“**Strong**” is the size of doll used for Wonder Woman and WWE Diva dolls starting in late 2017. These dolls have girthier arms/legs and a deeper panty but share the most measurements with Classic even though the sculpt is very different looking.

“**Tall**” is a size introduced in 2016, currently exclusive to Fashionista dolls. This doll has a straighter/longer torso and limbs than Classic but can share most clothes, they’re just a little short in the leg/sleeve.

“**Curvy**” is a size introduced in 2016. This body started as a Fashionista exclusive but has been adapted to other lines. This doll can share the fewest clothes with ‘classic’. Very stretchy dresses and moderately stretchy shirts can be swapped, but needs to have most clothes made for her shape to look right.

“**Petite**” is a size introduced in 2016, currently exclusive to Fashionista dolls. About as tall as the “Petite” size (ex. Skipper) doll, but very different proportions and cannot share clothes with that size. Clothes shared with Classic are a little loose, can easily be adjusted by overlapping back closure.
