

# How to use the Pattern Checklist

The pattern checklist has a LOT of info on it! You can:

- Ctrl+F the digital file and type in “bloomer” or “tights” or any other keyword to quickly find a pattern with a piece in it that you need
- Scroll through the pictures of outfits to visually match a look you want to sew
- Keep track of where you got your patterns in case you ever lose one and need to re-download
- Keep a copy with your printed out pattern pieces for easy reference
- Write in your own notes (like “unprinted” or “XL pieces in big folder”) to help you get even more organized
- Make a wishlist
