A fan designed specifically for social housing

Designed specifically for the needs of the social housing environment, Lo-Carbon Revive is a new generation of kitchen fan. Giving best in class features and performance, it has a variety of installation options as well as the ability to provide a range of diagnostics information. Revive's design also helps to repel dirt enabling the fan to be filterless, so landlords can install powerful fans with low maintenance requirements.

Models

Lo-Carbon Revive 7/SELV 7
