About Breksta

a short message

10 years ago, we began the journey in Los Angeles - one of the most densely populated & competitive areas in the country - and we never stopped innovating.

Weaving our way through every aspect of the mattress industry nationwide: from rolling up our sleeves & getting our hands dirty on the factory floor, to helping develop some of the nations most innovative products.

Eventually, we started Breksta - and made the pledge that our mattresses would always be at the cutting edge of design, made in the USA with quality tested materials and at the lowest price.

At Breksta, we don't sleep until you do.™

THE TECHNOLOGY

CertiPUR-US Certified Foams

Breksta mattresses are made in the USA without ozone depleters, PBDE's, TDCPP, mercury or lead or formaldehydes. Certified foams give you the peace of mind that the materials in your sleep environment are quality-tested.

Adaptive Comfort & Support

Gel memory foam, Float™ & Suspend™ mattress foam provides a feeling of weightlessness. Balances comfort & support & adapts to your body to remove pressure points on the shoulder & hips while lifting up and supporting the lower lumbar back.

Cool & Breathable Technology

High resiliency, open-cell breathable cooling foam technology allows for continuous airflow & dissipation of heat. Cotton blended fabrics adapt to the environment to keep the mattress surface at the ideal sleeping temperature for deeper sleep.

"For People With Sleep Issues"

This is an excellent mattress. As somebody with a lot of sleep issues, this mattress is perfect for me in that it's both comfortable as well as just firm enough to provide good support. I highly recommend this mattress to anybody that is looking for a new bed!
