

Fabric Properties

Fabric Name	Description	Colours		Washable	Weight
Flying Changes Technical Fabric	Our high quality Italian technical fabric has been developed exclusively for us. It has been tried and tested by elite riders in extreme conditions. Lightweight, breathable and so comfortable to wear you hardly know you are wearing a coat at all.	Black, Navy, Royal Blue, Grey, Green	51% Cotton 41% Polyamid 8% Elasthan	YES	295g/lfm
Helle	This is a fractionally lighter weight cloth and a beautiful classical fabric to wear due to the wool content. It is the fabric we used for all the Team GBR Rio Olympic coats. It however, does not have quite the same amount of elastane as our own fabric.	Black, Dark Navy, Light Grey, Charcoal Grey.	54% PES 44% WV 2%LY	YES	290g/lfm
Bom	Another super quality technical fabric, we use it mainly for the colours offered. It is slightly heavier than our own but still a very comfortable fabric to wear.	Dark Green, Blue, Dark Grey, Light Grey.	52% Cotton 44% Polyamid 4% Lycra	YES	310g/lfm
Tess	This fabric is very similar in properties to the Helle but has just a little more elastane.	Brown, Burgundy.	53% PL 43% WV 4% EA	YES	290 g/lfm
