

# LPLT-100

## EV Battery Pack Leak Tester

The new Test-Quick LPLT-100 by Flo-Dynamics is the most affordable and simple to use low-pressure leak tester on the market. It is the only low-pressure leak tester that is guaranteed to be 100% free of vapor or smoke leak detection dye.

Leak test EV battery packs without contamination, using filtered and moisture-free air to ensure a correct seal after performing service. The LPLT-100 allows for a technician to connect, test, and provide an accurate leak flow rate on the flow meter. Simply switch the control knob to Decay/Off to perform pressure decay testing.

### FEATURES

- Uses only shop air (75 - 175 psi)
- Supply pressure: 14" WC +/- 1"
- Tests with 100% filtered and moisture free air
- Designed in collaboration with Ford Engineering to comply with EV battery pack testing procedures
- Flow meter and gauge provides two testing modes – leak flow rate or pressure decay
- Test supply line: 120", 3048 mm
- Handheld and lightweight
- Dimensions: 10 3/4" H x 7" W x 10"D
- Weight: 9.5 lbs
- Limited one year warranty
- Ford approved
