Rocker Switch Control of a Linear Actuator

Functionality:

This wiring configuration shows the connection of a rocker switch to a DC power supply. Please note the section on LED wiring if you had purchased the RC-10 or 11 and require LED illumination.

RC-10 / RC-11 LED Wiring

Square LED (Always On) - GND to Pin 7, 12VDC to Pin 3
Square & Strip LED (On when rocker switch engaged) - GND to Pin 7, 12VDC to Pin 2
