

Power Trash Can with Tap Sensor Technology (black trim)

One tap is all it takes! **Power Trash Can with Tap Sensor Technology** is the smartest, most effortless pedal can ever invented. Unlike step-cans that require you to apply foot pressure and hold the pedal down for the lid to open, our patented technology opens, then automatically closes, the lid with just one tap. Or, double tap the pedal for a timed, five-minute lid open (or tap and rest your foot on the pedal for traditional step-can function). The enhanced, energy-saving technology extends the life of the battery up to 2 years with just 4 D sized batteries. The elegant, fingerprint proof, brushed stainless steel finish and choice of three trim colors complements any room. It's the smartest, easiest tap-on trash can you will ever use!
