

Enhance Literacy—Modeled Reading and Fluency

Dr. Maria Uribe

Enhance Literacy was developed in cooperation with Maria Uribe Ph.D, an EL Learner expert and an award-winning educator.

Enhance Literacy is a targeted teaching and intervention resource that will help you raise student achievement and motivation in three easy steps:

1. READ—Read short text with a small group
2. RESPOND—Complete an activity
3. REFLECT—Reflect on lesson challenges and next steps

Enhance Literacy helps develop students' thinking during reading for deeper comprehension of content and grade-level texts. It also provides targeted fluency intervention that goes beyond pacing.

Buy Both for \$599.00

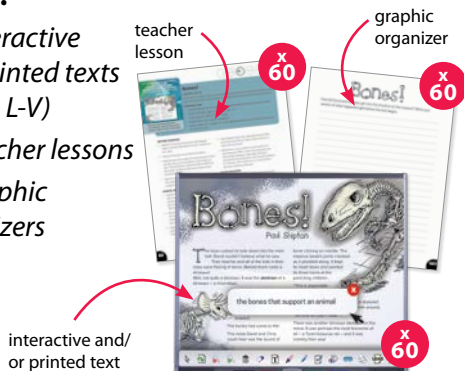

PL-6690 Modeled Reading Kit \$399.00

Explicit comprehension instruction

During small-group shared reading, students experience explicit teacher modeling of comprehension strategies and encounter short, complex texts in a collaborative learning environment.

Contains:

- 60 interactive and printed texts (Levels L-V)
- 60 teacher lessons
- 60 graphic organizers

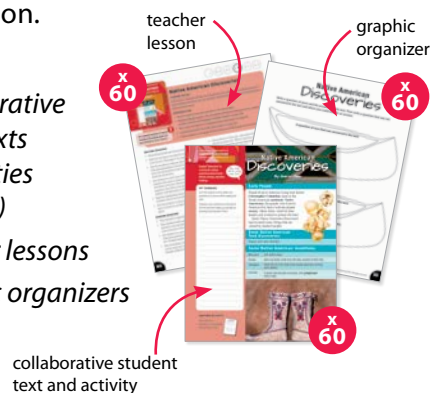

PL-6691 Fluency Kit \$399.00

Accelerates fluency and comprehension together

Through targeted small-group lessons, students learn to read with intonation, pausing, phrasing, and emphasis for accurate, smooth reading. Lessons also provide support with language and learning strategies to deepen comprehension.

Contains:

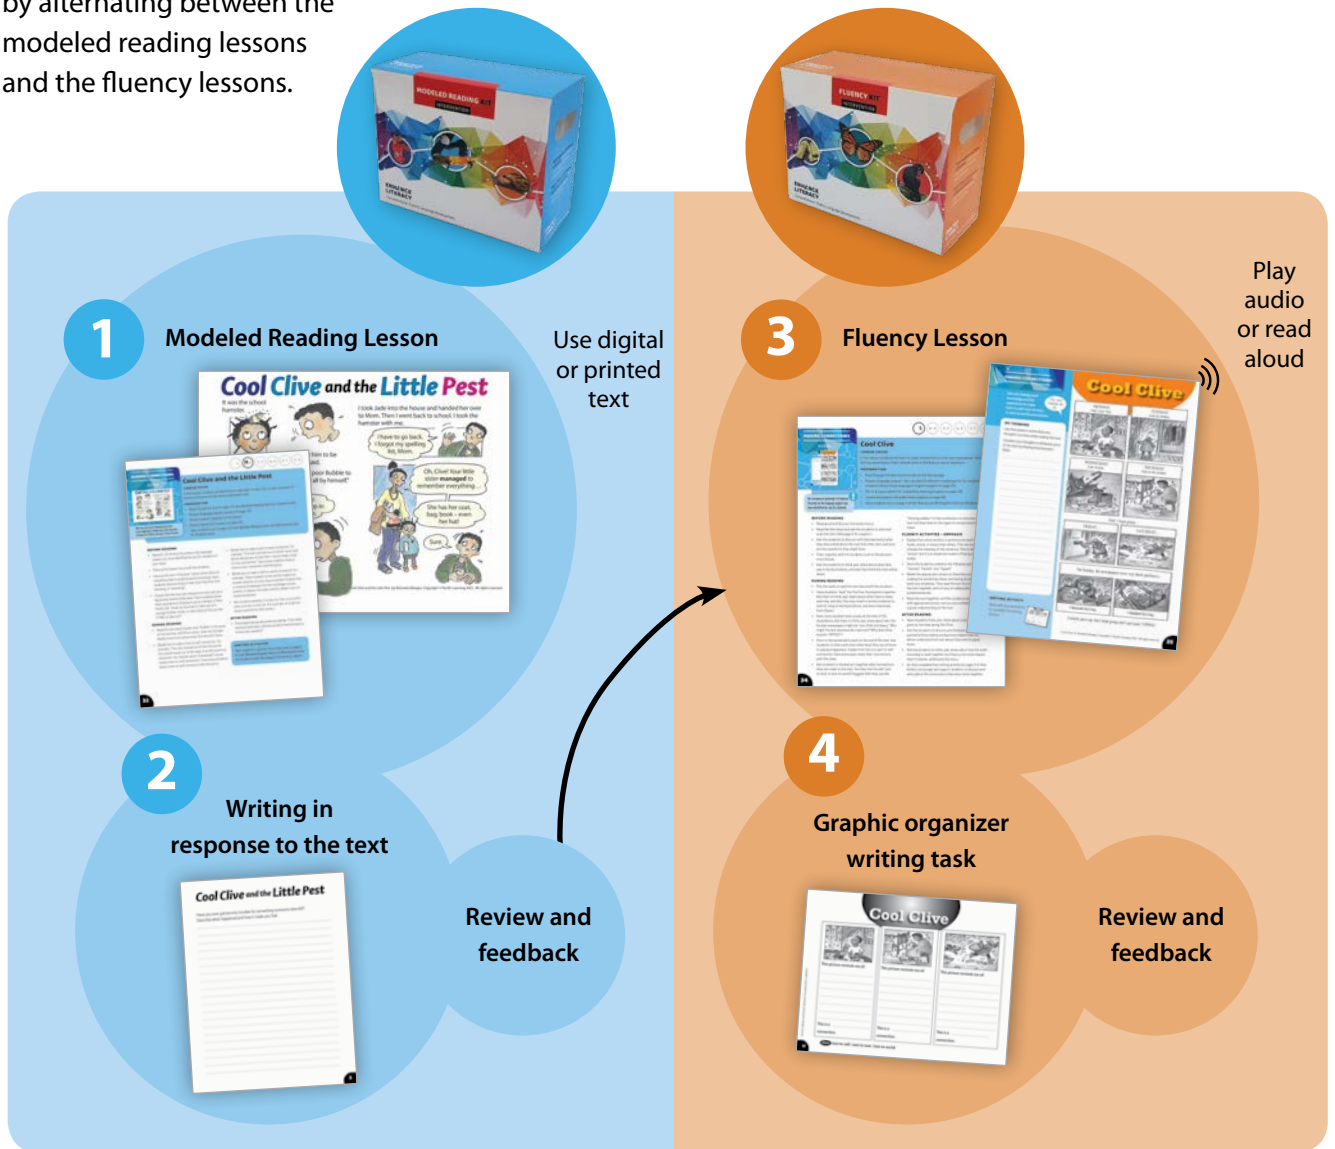

- 60 collaborative student texts and activities (Levels L-V)
- 60 teacher lessons
- 60 graphic organizers

Using Both *Enhance Literacy* Kits Together

Enhance Literacy has two components—the Modeled Reading Kit and the Fluency Kit.

The kits can be used together by alternating between the modeled reading lessons and the fluency lessons.

1 Modeled Reading Lesson

Use digital or printed text

3 Fluency Lesson

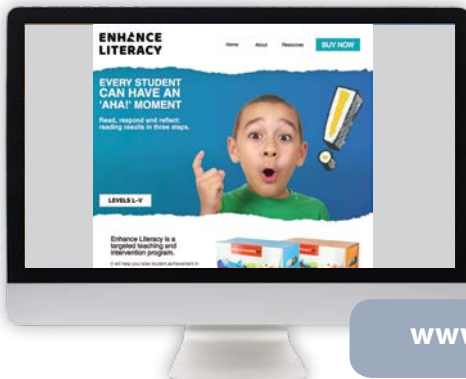

Play audio or read aloud

2 Writing in response to the text

Review and feedback

4 Graphic organizer writing task
