

Grinders

roasted

Hi there, we hope you're having a brew-tiful day.

Making the perfect cup of coffee requires the right equipment – perfectly suited to your exact needs. No one likes a queue either – you need a coffee machine that can cope.

We don't simply supply the beans. We are also a top UK supplier of top coffee machines. We don't just recommend all the latest gadgets either – we take the time to understand your business requirements and make an informed recommendation.

We also provide comprehensive barista training with each machine, so you and your customers can enjoy the full benefits and experience that the machine has to offer.

Each coffee machine comes with the added reassurance of a year's warranty too, covering all call-out charges and a speedy recovery just in case of a breakdown of any mechanical or electronic parts. It's the gift that keeps on giving.

Call us today to talk about your requirements, and we'll match you with your perfect coffee machine. We will happily provide you with a no-obligation quote too. We're a small, independent business, but we always strive to remain competitive, so will try our best to price match any like-for-like quotes.

So, how does it work?

Free tasting sessions for wholesale coffee enquiries.

First things first. Sample the good stuff and see what you like. We'll arrange a delicious free tasting session in our fully-stocked and equipped training room so you can get a taste of our exciting range of products – and a taste of what we're all about. Bring along a friend, meet the team and get ready to try the wholesale coffee of your dreams.

Let it all sink in, and if you decide after that we'd make the perfect blend, we'll deliver your first order personally, calibrate your grinder, set your coffee machine extractions and get you ready to wow your customers.

Complimentary start-up business advice from industry experts.

We know all about start-ups and the hospitality sector, and have an abundance of experience between us.

If you need a sounding board, to ask some advice, or someone to guide you through your coffee start-up journey every step of the way; from assisting with layout, prices, menus, point of sale and much more – we've got you covered.

No-tie contracts.

Unlike a lot of wholesale coffee suppliers out there, we don't believe in tying you into ingredients contracts. We're not cheeky or pushy like that. We know we can build and maintain partnerships based purely on how delicious and high-quality our ingredients are, how exceptional our customer service is, and how thorough our training and support is.

Comprehensive training

Speaking of training... Take your coffee knowledge and skills to the next level, but in a relaxed environment. Luke and Max are our coffee guru's (we challenge you to find anyone more passionate and knowledgeable about coffee) and they'll

help you get ready to blow minds, but with zero stress or pressure. And don't worry – we understand that it's easy to get rusty or need a bit of a refresh, so training isn't a one-off event to us. We're on hand whenever you need. This is a journey, and we'll take it one step at a time so you can build a detailed understanding of coffee, the industry, and the process. There's a whole world in that cup, after all.

Reliable support

We're in this for the people as well as the coffee. For the human beans. That's why we have teams of account managers, trainers, and engineers on hand to provide all the coffee support you need, any time you need it. Sometimes things break. But our coffee engineers will get you back making coffee before you know it. We offer full-service machine servicing, coffee grinder support and engineering. We don't have a coffee bean bat signal just yet but we're still just a phone call or an email away.

Wholesale accounts

You need the right wholesale coffee supplier for you. Someone who understands you, your business, and your customers. Whether you're looking for a change or are on the verge of starting something exciting, we can help you to grow and flourish.

We're an independent coffee wholesaler, so we like to do things a certain way. We want to work with people who are just as passionate as we are about providing exceptional coffee in an ethical, sustainable way – that's good for the planet, good for people, and good for you too. We've got the beans, the expertise, the services, the training, the equipment, and the tools to help you level up your coffee experience.

How do I sign up to roasted's wholesale coffee? We work our magic in Sussex, Surrey, and Kent. Setting up a wholesale account with us couldn't be simpler. You can place your first order (exciting) as soon as you're registered, so get browsing. Check out our Aladdin's cave of coffee machines, beans, and tools. Let's brew something beautiful together.

Want to talk through any questions? Or just jump straight into our new partnership?
Give us a call on **01273 491379** or fill out the form on **roasted.co.uk**
and one of our team will be in touch shortly.
