Welcome to the 2023/24 Perennial Sport and Turf Catalogue

Whether you are a sports administrator, facilities manager, property manager or looking after your local club facilities, we are here to help you get the best products to suit your sport and turf equipment needs. If you can't find what you're looking for, just let us know and we'll do our best to help. Or if you have a new sports project you'd like to discuss, give us a call.

We regularly attend industry events and are happy to come to showcase our products. If you are in Christchurch, you are more than welcome to pop into our office to see the showroom and the warehouse - we'd love to meet you.

SERVICES WE OFFER

Installations and Repairs

Yes, we can help - our team can meet your installation and repair needs. We have years of experience installing sports equipment, repairing nets, posts, goals and more. It doesn't matter what or where, we will get out there and provide you the best solution for your situation.

Wherever you are in New Zealand, we are happy to travel to you. We have teams based in Christchurch, Wellington and Napier. We've even been known to travel to the Pacific Islands for installations... great excuse for a tropical getaway too.

Please call to arrange a quote... we love an excuse to get out of the factory!

Consultation

Our team has seen it all! We are more than willing to assist you and your team make an informed decision when it comes to choosing the right equipment for your facility or team, no matter what the sport. We can also help with funding applications and community consultations.

If you are unsure of how to go about getting the best for your facility, get in touch.

At Perennial, we love sport and all the great things that come with it – fitness, friendship and good old-fashioned fun.

A grassroots Kiwi company since 2003, Perennial continues to grow from the ground up with our team now established and servicing the South Island, the lower North Island (South of Taupo) as well upper North Island (everything north of Taupo). We're also highly mobile and frequently travel to meet our new and existing customers across New Zealand and the world.

Perennial Sport and Turf Equipment is more than just a supplier and installer of quality sport and turf equipment - we're passionate about helping people enjoy the sports they love. We believe that good facilities and equipment make all the difference, which is why we offer an extensive range of locally and globally manufactured products. From football and rugby to golf and cricket, we have everything you need to keep your sport in top form.

We trust that this catalogue will give you a thorough overview of what we offer.

Quickscore

Introducing the Quickscore LED Smart Scoreboard

Multi-sport, multi-functional smart scoreboards that are easy to use and controlled by apps from your iPhone or iPad.

MARKET LEADING PRODUCT!

Multi-Functional

The QS Media Player app allows the scoreboard to easily convert into a video screen which can be used for outdoor cinema, events, parties, lessons and more.

Digital Advertising Platform

The Quickscore digital advertising platform is completely customised to your needs, whether you have lots of advertisers or none at all.

LED Smart Scoreboard

- Professional apps for various sports including football, rugby, rugby league, cricket, hockey, basketball, tennis, athletics, volleyball and many more
- Compatible with CricHQ, PlayHQ and NVPlay for cricket scoring
- Player photos, animations for goals/tries and more
- Controlled via an iPad or iPhone
- High resolution, impact resistant LEDs - designed to handle a cricket ball or hockey ball
- Indoor and outdoor options
- Portable stands, permanent stands or install onto a building

Net Installation and Refits

**We install customised net solutions across the country.
Contact us today to discuss your project.**

*"Mike from Perennial recently undertook the replacement of the top net in our indoor sports centre. This was part of a light replacement project. Mike gave us very good advice regarding the replacement net and completed the work to a high standard and within a very tight timeframe. While working on the top net Mike identified several other things with the nets requiring attention which he did for us. The end result of the project has exceeded our expectations and resulted in a lot of positive feedback from users of the Centre."
- Trevor Hammond, Trentham Sports Centre, Wellington*

**We supply customised cages for cricket, golf and other sports.
Ideal for the backyard!
Contact us to discuss your requirements.**

Leon de Oro Nets

- Perennial now proudly stocks a wide range of Leon de Oro Nets
- Leon de Oro are world leaders in sports netting
- Their nets are made to exceed strict European safety standards and have been used for numerous World Cups and Championships for different sports including:

**FOOTBALL
WORLD CUP:**
South Africa (2010)
Brazil (2014)
Russia (2018)

**FOOTBALL
CONFEDERATIONS CUPS:**
South Africa (2009)
Brazil (2013)
Russia (2017)

ASIAN CUP
in Australia (2015)
AMERICA CUP
in Chile (2015)
EURO CHAMPIONSHIP
in France (2016)

**Leon de Oro nets are manufactured from polypropylene and are knotless.
This makes them softer, safer for players and more consistent than knotted nets.**

They are quite simply the best sports nets available in NZ!

- \$500 design fee

Order ASAP for 2024

Heading Pro

- Helps teach players how to head the ball correctly
- 40% lighter than a traditional ball

Benefits and takeaways from our testing:

- Players have shown to be less afraid to head the ball
- Keeping their eyes open
- Concentrating more on technique
- Helps reduce the risk of potential injury once they arrive into their teenage years

"Our research has shown that the Heading-Pro ball can reduce head acceleration by almost 50% in youth players when compared to a IFAB regulated match ball."

- Dr Kerry Peek

- PhD (Behavioural Science), M Clin Sci, PG Cert (Sports Physiotherapy), BSc (Hons) Physiotherapy

Trolley Winder

- Holds 100m of Sumi Rain
- Robust steel construction
- Price includes reel
- Multiple hoses and reels can be used on one winder

Impact Paint

**Ready to use
and highly concentrated paint**

Impact line marking paint is the most advanced, ready-to-use line marking paint available. It raises the standard of sports field line marking to the highest level. No mixing and no pouring of paint are required as the paint is applied directly from its container without adding and mixing any water.

Adopting unique chemistry and advanced formulation techniques, Impact provides the brightest and whitest lines with superior light reflecting qualities. Impact is available in a number of standard colours which are vibrant and long lasting.

Under dry conditions and moderate temperatures above 5°C, the paint will become rainfast in as little as 20 minutes.

Applying Impact paint using one of the iGO spray marking machines is quick and trouble free. The combination of the formulation techniques, the pump and the unique nozzles makes it possible to overmark a standard size football field with as little as 1.6 litres of paint. This means that it is possible to overmark more than six standard size football fields

with a canister of 10 litres. All these fields can be marked without the inconvenience and downtime of frequent return trips for mixings, pourings and refills.

All prices include GST

The Impact paint is so versatile it can be used with almost any spray line marking machine usually following a conversion.

The Packaging

Impact paint is supplied in 10 litre and 5 litre canisters.

Using Impact paint, all the operator has to do is to shake or stir the paint well, open the container cap, insert the paint flow probe and screw the cap back on – it's that simple.

Facts

Carrying 2 x 10 litre jugs, more than 12 fields could be over-marked without returning to base or carrying a heavy tank of diluted paint. Massive savings in time and effort are achieved.

Impact Paints are:

- **Ready to use**
No mixing, no pouring, no mess
- **Time saving**
Fast set-up, fewer stops, quick cleaning
- **Cost saving**
Very little paint consumption
- **Highly visual**
Optical brighteners give bright white lines
- **Long lasting**
Highly rain resistant, lines last longer
- **Environmental**
No adding water, less waste
- **Water and latex based**

Impact paint is used on prestigious stadiums worldwide.

Impact range

Cone Nozzles

Considerable research has been undertaken matching paint formulation characteristics with spray nozzle flow rates and paint atomization.

Using cone nozzles, the atomized paint droplets spin when they leave the nozzle, covering both sides of the leaf, eliminating the need to make two passes to achieve the required quality of line.

The chart shows the time and flow rates of nozzles recommended for applying specific amounts of Impact paint, in order to achieve the desired quality of line when marking a standard size football field.

All calculations are based on 15 minutes spraying time which represents the average actual spraying time for a standard football field.

Spray application timing and flow rate of paint to the target surface is accurately measured using the correct nozzle.

iGO Midi, iGO Standard, iGO Prime, iGO Premier and iGO Deluxe		
Cone Nozzles	Flow Rate (7.2 Bar)	Impact Ready to Use (per field)

Line Markers

iGO Line Marking Machines

The iGO range was developed for grounds staff by grounds staff who want the best equipment for line marking. Our iGO's are easy to set up, operate and clean after use. All iGOs come with a simple on-off power button that gives the operator full control, a heavy duty pump that ensures constant pressure, a rechargeable battery that can be charged on the machine or removed and charged off site, marker discs and a variety of the unique cone nozzles. Our 5L and 10L paint containers can be quickly removed from the iGO making the machine much lighter to lift on and off a vehicle than alternative machines where the paint can not be easily removed.

\$1645

iGO Mini

- Perfect for schools and clubs
- Light and easy to move and use

Heavy Duty String Line

Tiny Mobile Robots

STOP SWEATING YOUR LIFE AWAY PAINTING SPORTS FIELDS

- Our robots are designed to reduce the time-consuming task of marking fields for councils, contractors, schools, sports clubs and organisations
- A new football field can be marked in as little as 20-25 minutes. This usually takes 2-3 people a number of hours
- No string lines or tape measures
- No spray paint or corner markers
- Never lose your fields when staff move on
- Never re-mark an unused field just to keep the lines visible for future games

All your fields at your fingertips

A wide range of field templates are included on the accompanying tablet. You simply select your template, customize directly on the tablet if needed and hit Start. Your fields are saved online and ready for future seasons.

- Payment plans available – contact us to discuss your needs and the options available
- New logo marking feature now available!
- New 'low paint warning' feature

- Robot comes with basic templates including cricket plus one set of templates (e.g. football)
- Purchase additional templates separately
- e.g. Rugby, athletics, softball

Baselight – Portable Sports Field Lighting

PRIME
DESIGN SWEDEN AB
Manufactured by Prime
Design of Sweden

“A football field of light established in under a minute with minimal transport resources and energy demand!”

Why Baselight?

The manufacturer of Baselight set out to create a product that could replace traditional, heavy light towers by harnessing technological advancements. The Baselight portable light towers perfectly embody this vision, offering superior lighting levels while being incredibly lightweight, starting at just 33kg, making it easily transportable by one person.

Key benefits:

- Portable, temporary sports field lighting
- Light up a full field for training with one unit
- Set up in one minute
- Rotate field usage to spread wear throughout the season – you are not limited by floodlight locations
- Significantly cheaper than floodlights
- Fully adjustable lighting angle (e.g. concentrated 90 degrees lighting or full 360 degrees)
- Low power consumption and zero emissions
- Noise free
- Can be plugged into a fixed power supply, vehicle or our separate batteries
- Easily transported and stored between uses

BASELIGHT MX SERIES

The Baselight MX series is a cutting-edge, portable all-in-one area LED lighting system.

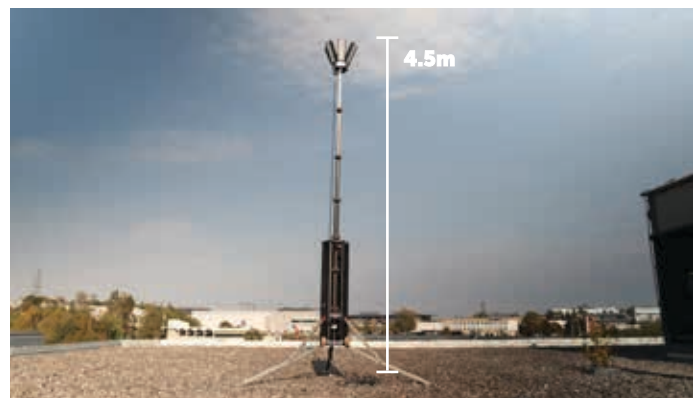

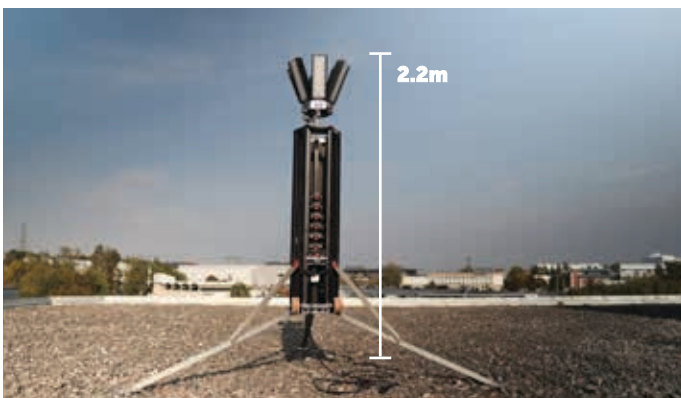

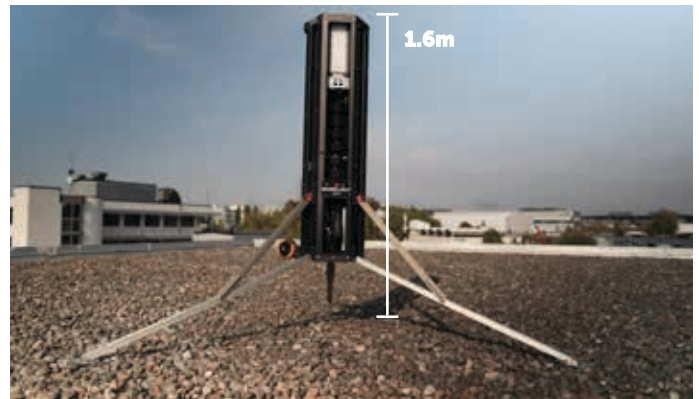

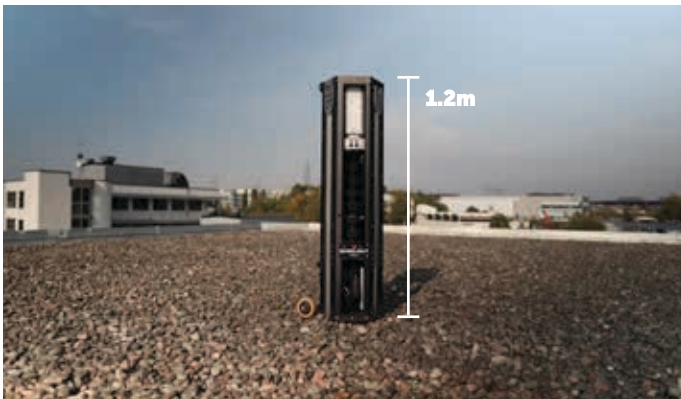

It has an automated, digital mast system controlled by an onboard computer. This system includes timer functions, automatic height adjustment based on wind speed, over-the-air software updates, and even the ability to control it via a smartphone.

BASELIGHT X SERIES

It features a manual mast system with a lightweight design.

	420MX	600MX	320X	420X	600X
Mast	Auto	Auto	Manual	Manual	Manual
Height	4.5m	4.5m	4.5m	4.5m	4.5m
Weight	44kg	47kg	35kg	35kg	37kg
Lumens	65,000	95,000	40,000	65,000	95,000

Prime Power Portable Battery Pack – I66

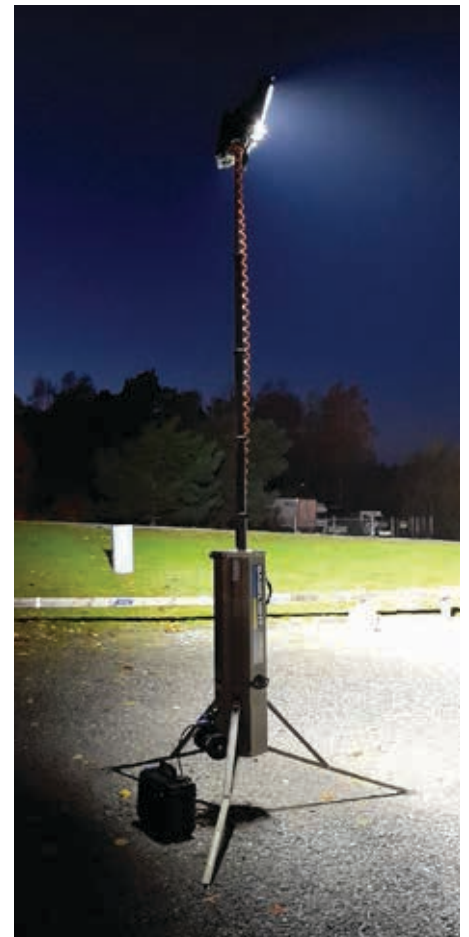

2kWh Rechargeable Inverter Lithium Ion Battery

Prime Power battery - a stand-alone power source that can provide sustainable power to temporary lighting units and other crucial equipment.

Key Benefits:

- Portable battery pack for Baselight or other electric items
- Provides up to 12 hours of high-performance power
- Charge in 8 hours
- Silent
- Zero emissions
- Waterproof
- Crush-proof

Specification:

- Capacity - 2kWh
- Dimensions
 - Length 413mm
 - Width 166mm
 - Height 311mm
- Weight – Only 17Kg
- Voltage - 110V or 230V
- Output waveform - True sine
- Continuous output (W) 800
- Peak output (10S) 1500
- Ingress level IP54/IP66
- Cycle lifetime (DOD) >3000
