

John G Peck Ltd

**POWEREX**

## POWEREX launch new website [www.pwrx.com](http://www.pwrx.com)

POWEREX is a leading supplier of discrete devices, modules and integrated high power semiconductor solutions. Its broad product line includes IGBTs, High Voltage IGBTs, rectifiers, thyristors, custom power modules and assemblies.

They are jointly owned by General Electric and Mitsubishi which ensures customer access to an established supply chain and cutting edge technology of Mitsubishi's leading chips, including Silicon Carbide.

POWEREX also have a wide range of Thyristor and Diode products produced at their facility in Youngwood, USA.

A wide application range is supported such as Industrial, Transportation, Renewable Energy and Pulsed Power but a key strength is in High Reliability products such as Aerospace and Military.

- Military Power Electronic Applications
- AC, DC and Servo Drives (Low and Medium Voltage)
- Aircraft (Electro-Hydrostatic Actuators, Power Generators)
- Medical Power Supplies (CT, MRI, X-Ray)
- Power Generation and Distribution
- Custom Power Modules

Please contact us if you have a requirement, need technical support or to discuss the other Products we represent in the field of Power Electronics [www.jgpl.com](http://www.jgpl.com)
