

Dosage Guidelines for Horses

| Horse Size | Weight in LBs | Daily Dose Required | Dosage | Course | Quantity of Yamoia™ Required |
|------------|---------------|---------------------|--|-----------|---|
| Very Small | 600lb | 4gm | 4 x 500mg capsules (2gm powder) with food 2 x daily | 2+ months | 4 x 120 Yamoia™ capsules or 8 x 30gm Yamoia™ Powder |
| Small | 900lb | 6gm | 6 x 500mg capsules (3gm powder) with food 2 x daily | 2+ months | 6 x 120 Yamoia™ Capsules or 12 x 30gm Yamoia™ |
| Average | 1200lb | 8gm | 8 x 500mg capsules (4gm powder) with food 2 x daily | 2+ months | 8 x 120 Yamoia Capsules or 16 x 30gm Yamoia™ |
| Large | 1800lb | 12gm | 12 x 500mg capsules (6gm powder) with food 2 x daily | 2+ months | 12 x 120 Yamoia™ or 24 x 30gm Yamoia™ |

The rule of thumb is to give large animals the human dose multiplied by the number of times the average human body weight goes into the animal's weight, or vice versa for smaller animals.

We offer Yamoia™ at 20% discount on a bulk orders for horses to help with the cost, but remember some animals respond more quickly than others, and so if you find you don't need as much as this after all we will take unopened containers back for a refund, or if you need more, we can arrange further discounts.

Contact: sales@not-the-norm.com to apply for your 20% discount and we will send you your unique discount code
