

Yamoa™ Powder & Capsules

A Unique 100% Natural Food Supplement

Probably the Safest Natural Lasting Treatment for Respiratory Allergies

Yamoa™ is the powdered bark of a gum tree from Ghana, which has been traditionally used mixed in honey and taken twice a day to eradicate the symptoms of breathing ailments. Since the early 1990s it has been available in the UK and manufactured to GMP standards and is available as a food supplement in pure powder and vegetarian capsule form.

Improving so Many People's Lives Beyond Expectation

Why do so many of our customers take the time to write or send us a video describing their experiences with Yamoa™? Simply because Yamoa™ changed their lives when they had almost given up hope and they want to thank us for making it available to them and inspire others to try it. Even the most sceptical people have turned to Yamoa™ as a last resort and are astonished at the results.

“My oldest brother is 81yrs. old and had asthma for 26yrs. He had four inhalers which he used daily. He used one in the morning after just getting out of bed and another after breakfast, then another at noon time and another at bedtime. He also had another which his specialist told him was only to be used as a last resort. He also had an oxygen bottle, stand and mask at home which he occasionally used. At 75yrs. of age he took one treatment of Yamoa Powder during which time he stopped using two of his regular inhalers. Then feeling somewhat better he tried another treatment of capsules and at the same time, stopped using the other two regular inhalers. He stopped using the oxygen mask also but carried with him his fifth inhaler which was supposed to be for emergencies only for the next two years. He then put it in the garbage he realized that he didn't need it anymore.” Philip Nowlan, Bouctouche, Canada February 19, 2011

Affordable & Effective - Yamoa™ can Reduce Health Costs

Yamoa™ is affordable, costing less than a Costa or Starbucks each day, and unlike other options that give you only temporary relief with unwanted side-effects, your very first order of Yamoa™ may be the very last penny you will need to

spend on your respiratory health. Like many before you, you could embark on a new drug-free life, and Yamoa™ is so safe, even a one-year-old child can use it without any known health risk.

Has there Been Any Research Conducted on Yamoa™?

Over the last decade, independent researchers have been intrigued by the dramatic anecdotal evidence from Yamoa™ users, enough to secure their own funding sources for research into its active constituents in their search for new medicinal actives.

Research has revealed that Yamoa™ is an effective anti-inflammatory, anti-bacterial, antifungal and an anti-plasmodial; it stimulates innate immunity, improves the white blood cell count and slants the allergic immune response on a molecular level.

The slanting of the immune system on a molecular level is key here, hence we receive so many reports of long term, lasting results. By changing a TH2 (abnormal) response to allergens to an increased level in TH1 responses (normal), Yamoa™ brings about a resolution to the root cause of the problem, rather than just dealing with the symptoms. Simply put, all these factors together explain just why Yamoa™ is so effective at changing the body's response to allergens which trigger asthma attacks, hay fever (seasonal rhinitis) and help to improve respiratory health - for some people well beyond their expectations.

Results have been reported in highly respected peer reviewed journals such as *International Pharmacology* and *The Journal of Immunology*.* This research blows the placebo effect out of the water, as does the fact that it works for children and animals.

Yamoa™ is fast becoming scientifically acknowledged as *the* herb to turn to for supporting respiratory health.

The Benefits

By far the best news about Yamoa™ is what it's done for people worldwide.

- ✓ A short course of 2 months can yield long-term results
- ✓ No unwelcome side-effects - there are no side effects that people can anticipate with either short or long-term use
- ✓ Affordable - as little as £1.00 a day - and many people no longer need to continue using it
- ✓ Easy to use - mix the powder into honey or food, or simply take the capsules twice a day
- ✓ Safe for all ages - children as young as 1yr old can take Yamoa™
- ✓ Non-Toxic and certified organic - all toxicology reports have been favourable, and certified organic in country of origin
- ✓ Manufactured to full British and International GMP Standards
- ✓ Safe when taken with prescribed medications – even people on complex drug or supplement regimes have not had problems taking Yamoa™ at the same time
- ✓ Free from Heavy Metals, Salmonella, E.Coli, Coliform and Streptococci - all batch tests have proven negative for these

Endorsed by the Foundation for Alternative & Integrative Medicine - Yamo[™] is the *only* product endorsed by this organisation www.faim.org

"I believe I can confidently and definitely state that THE YAMOA POWDER HAS COMPLETELY CURED ME FROM THE ASTHMA CONDITION, which a doctor discovered only within the past few years, though it might have been with me for many years. Maybe even nearly all of my life. Furthermore, I believe the Yamo Powder has played an important part, maybe the primary role, in nearly completely curing my allergies, which I have had virtually all of my life."

Brother Gabriel Kirby, Immaculate Heart Hermitage, California, 14th July 2006

Usage Guidelines

We recommend an initial course of 2 months. This may be more than enough to achieve long lasting results, but it may be too short a course, everyone is different.

Pure Yamo[™] Powder 30gm Dosage

To order go to www-not-the-norm.com

or call +44 (0)1865 355515

30gm Powder \$42.75 - 60 Capsules \$44.75 - 120 Capsules \$75.75

Prices correct at time of publishing, subject to change & exclude shipping costs.

- o Mix the entire contents of the 30gm bottle thoroughly with an average size jar of honey, about 1lb (454gm).
- o Stir well until the powder is completely mixed, also stir the mixture each time you use it.
- o Adults: One 5 ml spoonful of mixture twice a day for one month continuously.
- o Children: under the age of 12: Half a 5ml teaspoon of mixture twice a day until finished.
- o Or take a ¼ of a 5ml spoon of neat powder twice a day with a glass of water or fruit juice, tea or any beverage.

Vegan Yamo[™] Capsules Dosage

These vegicaps are filled with Yamo[™] powder and are a convenient approach to taking the original powder. They can be as effective as the powder. Useful for those on a low sugar diet and by busy people on the move.

Yamo[™] Capsules come in containers of 60 or 120 capsules, lasting 30 or 60 days for adults, 60 or 120 days for children under 12. No need to mix with honey etc. or beverages, other than for children.

ADULTS: 1 capsule twice a day (morning and evening) with water.

CHILDREN aged 1 - 12: ½ capsule twice a day (morning and evening) mixed in honey or jam, maple syrup or other foodstuff to mask bitter taste. If the child is old enough to swallow the capsule, only half of the powder will require mixing with honey (or other).

As a precaution (as there is no evidence to suggest it is in any way dangerous) Yamo[™] should not be taken during pregnancy or whilst breastfeeding, without your doctor's or paediatrician's consent.

FOR BEST RESULTS: FINISH ENTIRE MONTHS SUPPLY EVEN IF RELIEF IS FOUND AT AN EARLY STAGE OF TREATMENT. TWO MONTHS SUPPLY MAY BE REQUIRED AS AN INITIAL COURSE FOR MORE SEVERE/LONGSTANDING CASES. PLEASE WRITE TO US WITH YOUR COMMENTS, AFTER TREATMENT. IT IS IMPORTANT NOT TO STOP YOUR OR YOUR CHILD'S, CURRENT MEDICATION WITHOUT YOUR DOCTOR'S ADVICE. EVEN IF FULL RELIEF IS ACHIEVED YOU MUST ALWAYS CARRY YOUR EMERGENCY MEDICATION WITH YOU AT ALL TIMES, AS A PERSON WITH A HISTORY OF ASTHMA.

Yamo[™] for Animals

We have had excellent reports from people who have used Yamo[™] successfully on their cats and horses! Contact us for dosage guidelines.

It is our hope that many more people will eventually feel the benefits of Yamo[™] through your having taken it before them. So, if after taking Yamo[™], you are as pleased as most people with the result, please do a friend, relative or even a stranger a favour and pass this information on to them. You could truly help to change some lives.

Disclaimer

We do not, and will not, claim that Yamo[™] is a 'cure'. Where this word is mentioned about Yamo[™], it is as a direct quote from a former user or critic of Yamo[™] and reflects only their own true experience. Everybody is different, and everybody will react differently and have a unique experience with Yamo[™]. We cannot offer any guarantees that Yamo[™] will work for you, we can only express our own and our customers' experiences of it.

Customer Support

We are able to support you by 'phone or email - a personal service direct to us, no call centres or customer service reps.

Who needs coupons for products they may never need to use again? If you love Yamo[™] send us a written or video testimonial that we can use on social media and we will reward you!

If you find you need to order again, you will get a 10% discount off every order you place, forever.
