

FLOATING REAMER HOLDERS

The small floating reamer holder accommodates reamers with 7/16" diameter shanks. The rear of the holder has a female 33 Jacobs to use "off-the-shelf" shanks just as the Jacobs chucks use. To adapt to your lathe, we stock #1-#4 J33 Morse Tapers. Please tell us what size you need when ordering (no charge with a reamer holder purchase). Straight arbors are also available in sizes: 1/2", 5/8", 3/4" and 1".

SMALL HOLDER

SMALL HOLDER W/CHUCK
(adjustable from 1/16" to 1/2")

7/16" and 1/2" shank adapter option available to replace the use of the chuck.

LARGE HOLDER

The large holder is used to chamber 50 BMG, shotgun and larger calibers. It comes standard with #3 Morse Taper installed and accepts 3/4" shank tools. Other shank options and oil through passage available upon request.
