# Joining with the Lamello System

An exceptionally efficient, simple and precise joining system for panels

## How it works

1. Cut grooves

2. Apply glue

3. Insert biscuits

4. Clamp workpiece

The precise work results of the system and the long life of the power tools pay off

## Advantages and properties

**Fast** – Lateral sliding tolerance

- **Easy positioning** of the machine to the pencil mark
- **No additional side stops or positioning aids necessary**
- **Great flexibility** when assembling, possibility to join panels by sliding together from different angles – not just perpendicular unlike dowels (see large picture left)

**Easy** – Same groove depth for both sides

- No changing of the cutting depth means **less room for error**
- **Saves time** with every joint

**Precise** – Established cutting principle with disc cutter

- **Disc-shaped tools cannot bend or flex**
- **Always parallel, precise grooves** – despite wood knots or fast working
- **No tool change** for many different joining elements
- **Low maintenance cost** throughout the long life of the power tool, maintenance comprises **one cutting tool only**

**Versatile** – Thin flat joining element with minimal installation depth

- **Join thin workpieces** 8 or 10 mm in many various angles
- **Minimal material weakening**
- **Non-rotating, cost effective** joining elements

# Versatile applications with a wide range of joining elements

Without tool change			With tool change
20	10	0	H9
E20-L	E20-H	K20	Clamex S-18
C20	C10	Simplex	

## ...and many more additional benefits

**Cut grooves**  
Cut grooves for tongue and groove connections, using standard carbide-tipped groove cutter 4 mm

**Wood repairs**  
Repairing of resin pockets and small defects, carbide tipped cutter for Minispot patches size 2

**Cut expansion gaps**  
Expansion gaps for wood ceilings or floors, sliding shoe and carbide-tipped saw blade

# The original wooden biscuit

The Original  
Swiss production  
Swiss timber  
Lamello quality

**Advantages and properties**

- 1. Rounded smooth edges**  
– Easy handling and insertion
- 2. Recessed & embossed glue surface**  
– Accurate glue distribution  
– Easy insertion into groove
- 3. Diagonal fiber orientation**  
– Excellent breaking strength

Wood biscuits carton	Size	Quantity	Part no.
Size 20	56 × 23 × 4 mm	1000 pieces	144020
Size 10	53 × 19 × 4 mm	1000 pieces	144010
Size 0	47 × 15 × 4 mm	1000 pieces	144000
Size H9	38 × 12 × 3 mm	1000 pieces	144009
Size 20, 10, 0	assorted	1000 pieces (500, 250, 250)	144030

Installation of wooden biscuits with cutter Ø 100 × 4 × 22 mm (standard cutter)  
Installation of H9 wooden biscuits with cutter Ø 78 × 3 × 22 mm (Part no. 132009)

# Gluing

## Minicol

The all purpose glue applicator

### Advantages and properties

- For 4 mm grooves
- Nozzle facing downwards in the stand for quick use
- Bottle base prevents the glue from drying up in the nozzle
- Volumetric capacity: 300 ml
- Glue application on the sides

**Minicol:** glue applicator with a sturdy bottle base in solid wood  
175500

# Clamex S connector

For aesthetic constructions. Detachable, flexible and easy. Installation in an 8 mm groove with screws

Flexible

Stackable

### Advantages and properties

- Detachable connections
- Aligns and connects, 2 functions in one
- Aesthetic joint due to the small hole for opening and closing
- Safe from twisting due to the aligning studs
- Flexible miters in all angles
- Stackable, since no parts protrude from the surface, so ideal for flat packing
- Easy installation with any Lamello biscuit joiner

Aesthetic

Detachable

### Applications of Clamex S

- Detachable furniture joints
- Surface, corner and dividing wall connections
- All angles
- Frame connections
- Dividing walls
- Glue aid

### Technical data

Size.....	66 x 29 x 8 mm
Cutter.....	Ø 100 x 8 x 22
Material of connector.....	fiberglass reinforced plastic
Material of lever.....	zinc die cast
Installation tolerance.....	longitudinal ± 1.0 mm (max. ± 1.25 mm)

### Clamex S-18

#### Part no.

18 pairs .....	<b>145231</b>
80 pairs .....	<b>145236</b>
300 pairs .....	<b>145241</b>
1000 pairs .....	<b>145251</b>

Accessories starting page 98

### How it works

Clamex S-18 installation with cutter Ø 100 x 8 x 22 mm (Part no.132108)

1. Cut groove, 8 mm

2. Drill hole 6 mm

3. Screw in the Clamex S

4. Connect, finished!

# E20

The self-clamping element

Inserting E20-L

### Advantages and properties

- **Connects and clamps** with one strike. The curved ridges clamp the connection together during insertion.
- Cut groove in both workpieces **simultaneously**
- **No clamps** – no waiting time
- Easy joining with a Lamello biscuit joiner

### Applications of E20

- Door frames
- Furniture plinths
- Elongating of panels and profiles
- Ideal on site

### Technical data

Size E20-L	56 x 11.5 x 4 mm
Size E20-H	23 x 28 x 4 mm

# K20

Clamping element

### Advantages and properties

Clamping aid for workpieces which are difficult to clamp, e.g. bulkheads, crown moulding etc. Use in combination with wooden Lamello biscuits. Made of plastic, barbed cross ribs for grip.

Cutter	Size (mm)	Quantity	Part no.
Ø 100 x 4 x 22	60 x 24 x 4.5	80 pieces	145001
		250 pieces	145000

# C20 / C10

Solid surface element transparency

### Advantages and properties

For joining solid surface materials such as Corian®, Varicor® etc. Made of translucent plastic

Cutter	Size (mm)	Quantity	Part no.
C20 ...Ø 100 x 4 x 22	60 x 23 x 4	250 pieces	145010
C10 ...Ø 100 x 4 x 22	53 x 19 x 4	300 pieces	145012

# Simplex

Detachable slide-in connector

### Advantages and properties

Detachable, two part connector for ceiling panels, screens, shelves and general casegoods. Install with insertion tool and two-part epoxy adhesive. Made of aluminum

Cutter	Size (mm)	Quantity	Part no.
Ø 100 x 4 x 22	54 x 23 x 4.1	50 pairs	166101
		100 pairs	166100
Inserting tool for Simplex (For accurate positioning of Simplex)			166110

# Original Lamello biscuit joiners

## These properties make the difference

### Multifunctional stop square included in the kit

Both sides flush surfaces on baseplate, swivelling front and stop square for efficient positioning of the biscuit joiner on the work piece's outer edge

**Vertical stability** by attaching to the baseplate to increase the surface

**Perfect precision of miters** by applying on the outer surface for 22.5 and 45° angles

**Variable positioning of the groove** from the application surface 0–50 mm

### Swivelling front with fixed rotational point

Exactly the same distance from both sides to the cutter = 8 mm

Allows alternating the application surface from the swivelling front 1. to the baseplate 2. Especially important when cutting thin dividing panel connections

- **Safe process** guarantees always precise, parallel grooves
- **No inaccuracies or source of mistakes** because the height cannot be adjusted

**Application with the swivelling front**  
With the 4mm spacer for 12 mm dividing panel (groove in the center)

**Application with the baseplate**  
The dividing panel (moved by 4 mm) serves as application surface

### High-precision machined application surfaces

- **CNC machined high-precision application surfaces** for exact application on the workpiece

- **Long-life precision guide** provides exact, parallel grooves for perfect fit of the workpieces

## Classic X

The original biscuit joiner for every workshop. Choose Lamello for precision, reliability, longevity and many other benefits

Swivelling front and base plate are flush on the sides

### Advantages and properties

- Powerful 780 W motor, ergonomic slim shape
- Base plate is flush on both sides for efficient positioning of the machine on the workpiece
- High-precision machined guide and application surfaces for perfect fit of the workpieces
- Multifunctional stop square
- Versatile use, (see p 52)
- Swivelling front stop 0–90° with detents at 22.5°, 45°, 67.5°, 90°
- Rotating depth adjuster with 6 standard depths

Central lock

### Technical data

Power .....	780 W
Voltage .....	230 V oder 120 V
Speed .....	10'000 min <sup>-1</sup>
Cutter .....	Carbide tipped cutter Ø 100 x 4 x 22
Teeth .....	Z6 (3+3) with reversing teeth
Cutting depth max. ....	20 mm
Weight.....	3.1 kg

### Versatile applications

Joint with biscuits

Joint with Clamex S

Wood repairs

Classic X	Part no.
in systainer.....	101600S
in carton .....	101600K

# Top 21

The original biscuit joiner with height adjustable blade from the inventor of biscuit joiners. Choose Lamello for precision, reliability, longevity and many additional applications

Adjust groove to middle

Off-set workpieces

Double cut for Clamex S

## Unique features

### 1. Height adjustable cutter

SMS: Step Memory System

- Scale +/- 2 mm in steps of 0.1 mm (total 4 mm)
- Adjust groove position to exact **center of the workpiece** (material thickness 8 – 24 mm)
- Easy joining of laterally **off-set workpieces**
- Double cut 2 x 4 mm **for Lamello Clamex S**
- **Expansion gaps** (adjustable from 8 to 12 mm) adjustable in steps of 0.1 mm
- Individual positioning of the groove

### 2. Powerful 800 W motor

- Powerful, electronically controlled motor with soft start, constant speed control, overload protection and restart protection
- Service friendly, minimal cost for maintenance and repair

### 3. Precision cutter

with 4 scoring teeth and hub

### 4. Including dust bag

and adapter Ø 36 mm

## Technical data
