**Panolam HPL Leadtime Update**

We are writing to inform you of a change to our “Made to Order” HPL manufacturing lead-times. Due to current Auburn production capabilities along with paired process and material improvements, these lead-times are effective on all new orders immediately. Only “Made to Order” standard grades HPL (F28, F39, G48) are extended.

<b>“Made to Order “and/or Stock Replacement standard grades HPL (F28, F39, G48) including with Highwear finish</b>	<b>30 business days or less to local Distribution Center</b>
<b>FRL, ThruColor, ChemGuard, Fire-Rated, Markerboard, Cabinet Liner, and Static Dissipative HPL</b>	<b>30 business days or less to local Distribution Center</b>
<b>Phenolic Backers, Flooring, Thicklam, and any other general-purpose laminates including G02s, G04s and G06s.</b>	<b>40 business days or less to local Distribution Center</b>
<b>Digital / Silkscreen / Crossgrain</b>	<b>45 business days or less to local Distribution Center</b>

Additionally, limited shortages are being noted on Distribution Center stock levels of “wallboard” items in popular decors, sizes, finishes, and grades, along with some existing customer order files. *Any inquiries about specific orders should be addressed to Panolam Customer Service.* Panolam is committed to continuous improvement in our production and backlog efforts and supporting your material needs and planning process.
