

About Progression Solicitors

Progression Solicitors look for practical solutions to your legal issues and provide a client focused, value-for-money service.

Their lawyers offer specialist advice and a wealth of experience gained from working in leading city practices.

“Using DPA has meant that homeworking during the coronavirus lockdown has been pretty straightforward; **much like being at work, but without any commute.**”

How different would life be without Dragon Anywhere?

I think the answer has to be ‘very’...

The simplicity and ease of use of the software has meant that I have been able to continue working from home during the Coronavirus lockdown as efficiently as being in the office...

Plus, removed much of the stress of dictation to a secretary or manual typing, freeing up time to just get on with the job.

The Challenge

Convert voice-to-text without the need for additional admin staff and provide the ability to work from home.

Key Requirements

- Provide High Level Accuracy
- Require Minimal Training
- Allow Home Working
- Cope With Multiple Accents

The Solution

Dragon Professional Anywhere (Speech Recognition Software).

The Cloud-based Speech Recognition Solution

A year ago I decided to make a move and join Progression Solicitors... I was impressed with the forward thinking approach – part of which was the extensive use of speech recognition software. I was very quickly kitted out with Dragon anywhere, and a dinky little earpiece with microphone, and hey presto! Off I went, handsfree to multitask while dictating! Or even get some steps racked up on the Fitbit!
