OPTICS CATALOG

OAKLEY

OAKLEY

FRAME MATERIALS

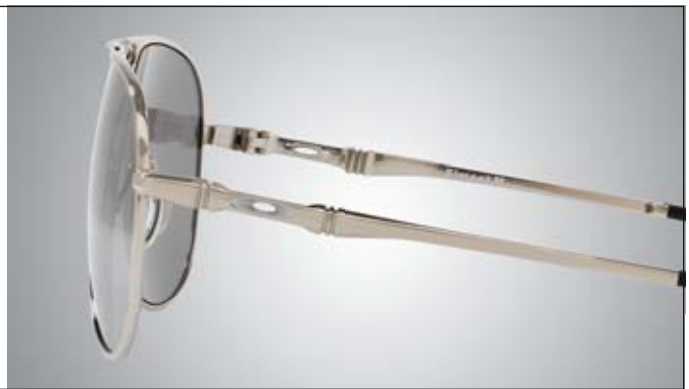

O MATTER™

Oakley's injection molded thermoplastic O Matter™ frame material provides improved strength and flexibility over traditional acetate, and built to withstand from shifting or deforming over time.

C-5™

To produce the ultra-strong chassis of Oakley wire frames, five metallic compounds are fused into a single C-5™ alloy.

STAINLESS STEEL

The durability of an extremely high strength-to-weight ratio allows us to make stainless steel frames with comfortably thin architecture.

TITANIUM

An ultra-lightweight, virtually indestructible material used in fighter jets, titanium allows Oakley to produce some of the strongest, lightest and most comfortable Oakley frames.

NANO-MATTER™

Oakley's ultra-lightweight durable frame material allows for all-day comfort and resistance to the elements.

CARBON

With durability that comes from decades of research and development in sports innovation, this ultra-lightweight material provides superior comfort and flexibility.

ACETATE

Handmade layered acetate allows for a multitude of rich hues and colors, as well as visual textures, giving this frame material its high-quality look and feel.

ALUMINUM

The high strength-to-weight ratio of Oakley's aerospace-grade aluminum alloy enables the bold styling of sculptural designs in a durable and very lightweight frame construction.

NANOWIRE™

Comprised of incredibly sleek and ultra-lightweight titanium alloy, Oakley Nanowire™ creates sculptural contours without sacrificing comfort or flexibility. Shape-shifting Memory Metal flexes and springs back into place, providing an adaptable fit that borders zero gravity.

FRAME TECHNOLOGY

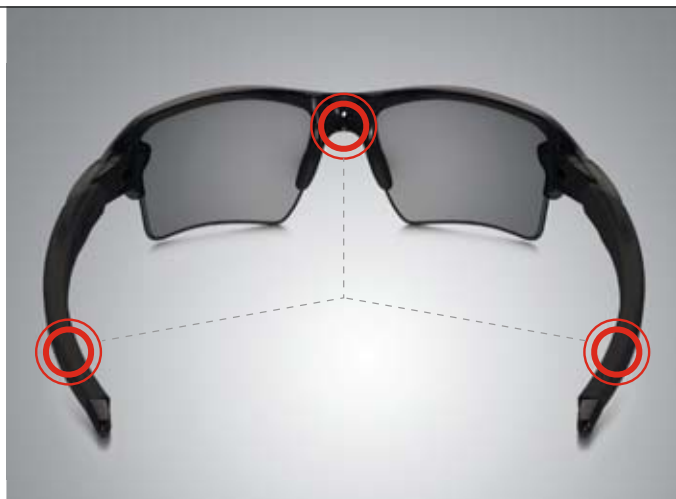

ADVANCER™ TECHNOLOGY

Advancer nose bridge instantly opens airflow to combat fogging and overheating. A simple actuator toggle allows you to advance the frame, with a single hand, directly forward instead of down your nose.

THREE-POINT FIT

Oakley's Three-Point Fit ensures that each frame makes contact only at the bridge of the nose and behind the temples. This retains optics in perfect alignment, maintains a secure fit and eliminates the discomfort of ordinary frames that hook the ears with unbalanced pressure points.

UNOBTAINIUM®

First introduced on our sport performance products, Unobtanium® earsocks and nose pads provide increased comfort and performance. Increases grip with sweat.

SWITCHLOCK® TECHNOLOGY

Adapt and conquer with Oakley Switchlock® Technology. Oakley Switchlock® Technology's simple switch mechanism makes the process of lens changing quick and hassle-free.

TRUBRIDGE™ TECHNOLOGY

Oakley TruBridge™ Technology is a frame-fitting system optimized for a perfect fit. Offering a solution to the issue of varying nose bridge widths and depths, TruBridge comes with four different-size nose pads engineered to fit the four most common nose bridges. The first of its kind technology helps provide a centered line of sight where the prescription is most accurate; maximum nose pad contact for even weight distribution; and a fit that eliminates cheek contact for all-day comfort.

NO-SNAG NOSEPADS

Oakley's patented, hassle-free and adjustable nose pads won't snag or pull on hair. Transitioning eyewear from the top of your head to face has never been easier.

HINGES

LATCH

The Latch hinge is an interior kick-up feature that lets you clip your glasses to your shirt, allowing you safely stow your eyewear and move seamlessly through your day.

HOLLOWPOINT™

Inspired by hubless motorcycle wheels, HOLLOWPOINT™ hinges turn simplicity into a work of art. This pure approach uses a self-contained spring cam mechanism and an internal piston, achieving a minimalist design that is both sturdy and lightweight.

MONOSHOCK™

The Oakley MONOSHOCK™ hinge combines mechanical precision for flexibility, comfort and fit to create a prescription frame hinge that is as big on technology as it is on style. The MONOSHOCK™ hinge has a single "tine" (a slender projecting part, like the tine of a fork) that bridges the frame and earstem.

TWINSHOCK™

Inspired by pro racing, the structure of the Oakley TWINSHOCK™ hinge is similar to leaf springs used for shock absorption. Utilizing two tines, the TWINSHOCK™ hinge combines durability, flex, comfort, fit and distinctive design architecture that is unique to Oakley.

ZERO PROFILE™

To achieve an entirely new aesthetic, we created a seamless blend of mechanics and art that does away with the inconvenience of a bulky hinge. The integrated design of the ZERO PROFILE™ spring hinge leaves nothing but a sleek sculpture, and it maintains full durability and comfort.

SUN LENS TECHNOLOGY

OAKLEY HIGH DEFINITION OPTICS (HDO®)

A combination of technologies and patented innovations that give you clearer, sharper vision, HDO® virtually eliminates the distortion common in high-wrapped sunglasses.

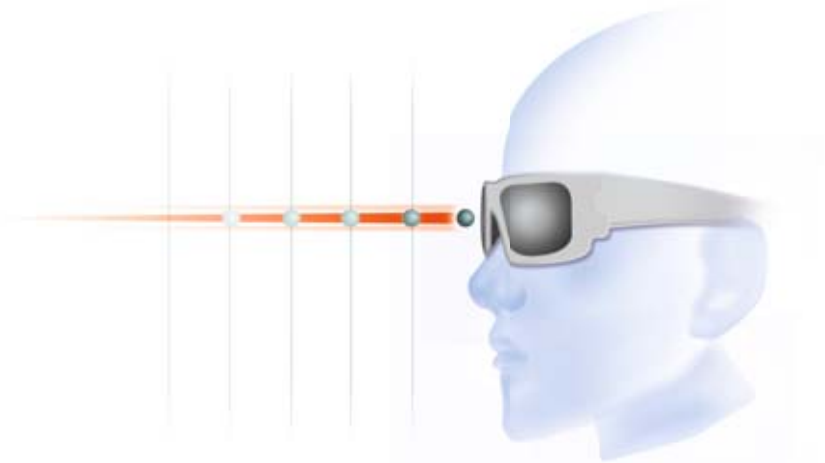

- REFRACTIVE POWER. Conventional lenses can magnify images. HDO® precision gives less distorted vision across the entire field of view.
- ASTIGMATISM. Ordinary lenses can't focus all light waves in the part of your eye that does the seeing. With HDO®, you won't have the blur of inferior optics.
- PRISMATIC POWER. With regular lenses, objects aren't really where you see them. HDO® offers a truer visual image, and it helps ensure each eye has the same image so your brain won't have to work overtime.

IMPACT PROTECTION

We go to great lengths to ensure our sunglasses protect your eyes. The lens material and frame geometry provide protection against high velocity and high mass impact.

- High velocity testing: Impact resistance against light objects at high speeds.
- High mass testing: Impact resistance against heavy objects at low speeds.

102 MPH

100% UV PROTECTION

- Oakley Plutonite® filters out 100% of all UVA, UVB, UVC and harmful blue light up to 400nm.
- The lens material itself blocks UV, so you don't have to rely on a thin surface coating that can wear away or become scratched.
- Our optical technologies allow for lens curvature that improves protection at the top and sides of your eyes.
- All Oakley sun lenses and Oakley Authentic Prescription Lenses provide 100% UV Protection

OAKLEY HDPOLARIZED™

Oakley HDPolarized™ lenses block 99% of harsh glare and minimize eye strain. Our infusion molding process eliminates the glues, layering and distortion found in conventional polarized technology.

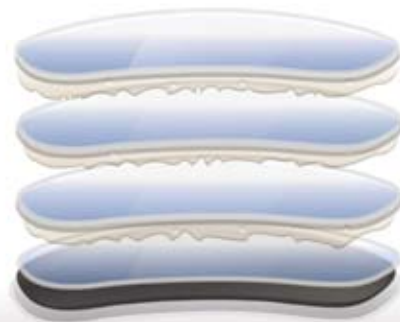

Other lenses are made up of multiple layers, attached with glue. Glue bonded layers diminish clarity and cause distortion.

One layer and no glue means the greatest possible clarity and least distortion. Look through less to see more.

OAKLEY: FUSED AT THE MOLECULAR LEVEL

VS.

COMPETITORS: GLUED LAYERS = DISTORTION

PHOTOCHROMIC

- Our photochromic lenses help you adapt to changing light conditions so you can always perform at your best.
- Your lenses won't be too dark when the sun pulls a disappearing act or too light when it knifes through the clouds.

LIGHT CONDITIONS

LENS ADAPTATIONS

OPTICAL LENS TECHNOLOGY

OAKLEY AUTHENTIC PRESCRIPTION LENSES

The Oakley Authentic Prescription Lens Program, including sun and optical styles, features Oakley's unparalleled optical innovations merged with leading technologies and features designed to meet, and exceed, the uncompromising demands of sport and everyday life. Only Oakley Authentic lenses are signed with the ellipse logo, an icon of uncompromising quality for proof of Oakley authenticity.

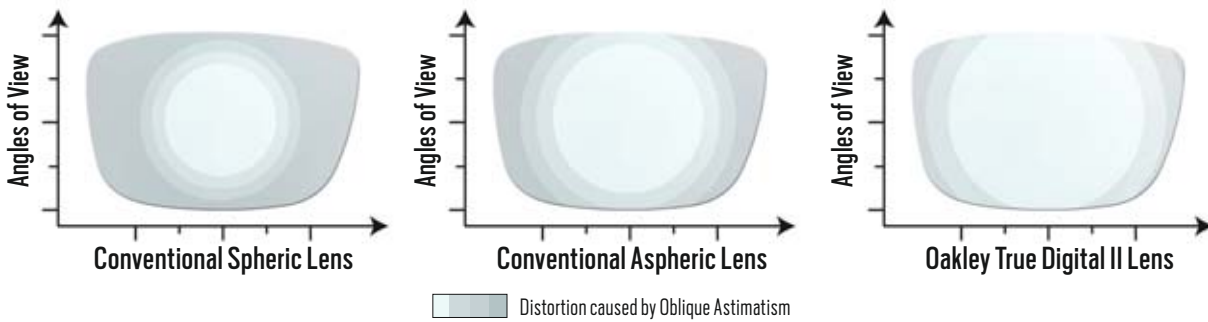

OAKLEY TRUE DIGITAL FREEFORM TECHNOLOGY

CORNERSTONE OF OAKLEY PRESCRIPTION OPTICS

- OTDI freeform technology delivers a more consistent power profile across the entire visible field of view

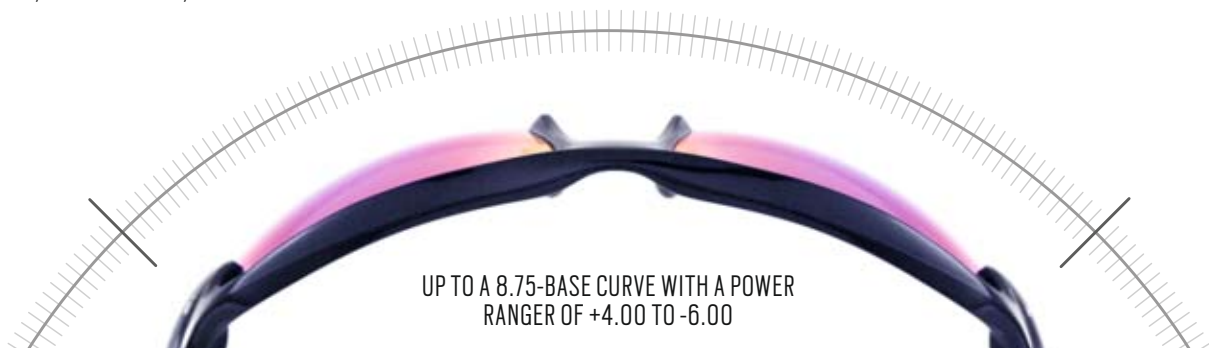

IMPROVED OPTICS AND INCREASED POWER CONTROL

- Wider power ranges with no frost in the lens periphery
- Minimizes oblique astigmatism for a wider field of view
- Faster adaptation & patient comfort

HIGH-WRAP SPORT FRAMES IN HIGH PRESCRIPTIONS

- This technology uses what we know about frame tilt, wrap, and vertex distance to optimize your doctor's prescription for your frame on your face.

SPORT-SPECIFIC SOLUTIONS

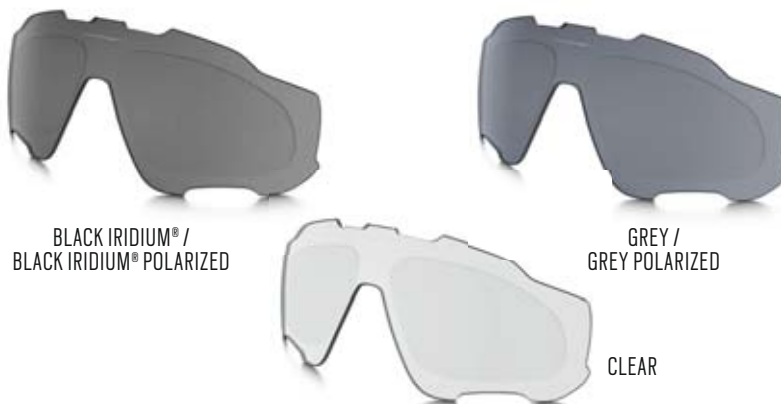

Best combination of materials, design and quality for optimal sport performance vision

OAKLEY SHIELDS WITH RX INSERTS

Using shield insert technology, the prescription is glazed on two separate lenses which are placed into the shield to provide corrected vision.

Available in the following Standard Lens Colors:

PRIZM™ LENS TECHNOLOGY

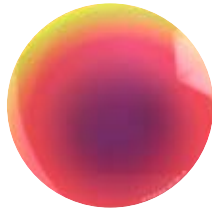

Oakley Prizm™ lens technology has turned eyewear into vital equipment for sports. It all comes down to enhancing detail in the most precise ways to optimize your visual experience, and the result is game-changing performance.

We analyze the demands of each sport and environment to ensure each lens transmits the right wavelengths. That way, you can experience sharpened visual acuity that helps you see everything more clearly, and react more quickly. Beyond enhanced detail recognition that helps you spot what you need to see, Prizm Sport lenses improve your ability to see and track moving objects in your periphery. Whatever the sport, you'll have improved performance to help you compete with confidence.

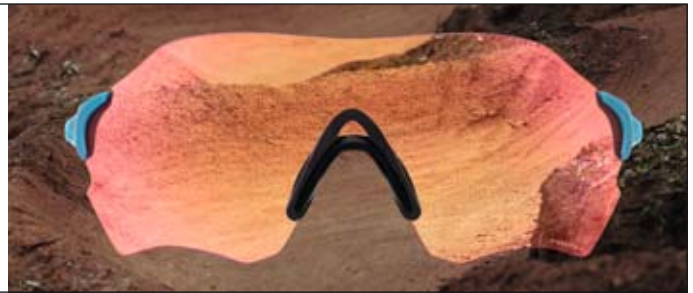

PRIZM™ ROAD*

Engineered to help you see subtle changes in road texture and quickly spot hazards like rocks and potholes so you can perform with confidence.

PRIZM™ TRAIL*

Engineered to help you spot transitions and textures between types of dirt and distinguish obstacles in a variety of light conditions so you can ride with confidence.

PRIZM™ GOLF*

Engineered to help you spot transitions between the fairway, fringe, and rough and gauge distance with accuracy to help you read the course better.

PRIZM™ DARK GOLF

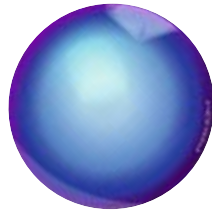

Engineered to help you spot transitions between the fairway, fringe, and rough and gauge distance with accuracy to help you read the course better in bright, sunny days.

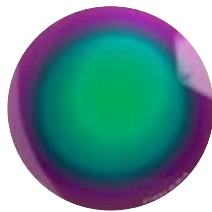

PRIZM™ DEEP WATER

Engineered to help you see what's under the surface by boosting colors that water absorbs and cutting through glare.

PRIZM™ SHALLOW WATER

Engineered to help you identify structure and drop offs, and cut through glare in freshwater environments.

PRIZM™ FIELD*

Engineered to enhance contrast and help you easily track the ball against the sky, grass and dirt.

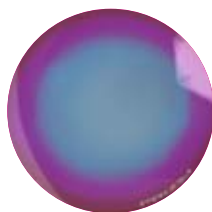

PRIZM™ LOW LIGHT

Engineered to help optimize detail recognition in low light conditions and artificial light environments without causing a color shift in your vision.

PRIZM™ SNOW

Engineered to help you see snow contours, bumps and textures in a variety of light and snow conditions.

PRIZM™ LENS TECHNOLOGY

Oakley Prizm™ lenses fine tune individual colors, enhancing detail for an optimized experience. With ordinary sunglass lenses, the world looks dull and flat, but Prizm lens technology makes everything look vivid and vibrant. It's a breakthrough that comes from decades of research in optics for professional athletes, and it helps you make the most of everything from sports to everyday life.

GREY BASE

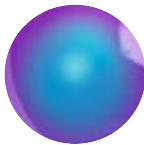

*Also available in non-polarized

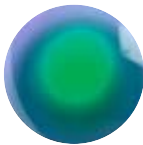

PRIZM™ BLACK POLARIZED*

PRIZM™ GREY POLARIZED*

PRIZM™ SAPPHIRE POLARIZED*

PRIZM™ JADE POLARIZED*

Some of our most popular lens colors are now available in Prizm. We chose our top sellers, including rich hues of Iridium® such as Black, Tungsten, Ruby, Sapphire, Jade and 24K. Customers who prefer a non-mirrored look can choose Prizm Grey or Prizm Bronze, which do not have Iridium coating. Each of these Prizm lens colors are available with HDPolarized™ technology to cut glare.

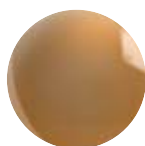

BRONZE BASE

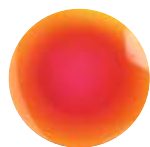

*Also available in non-polarized

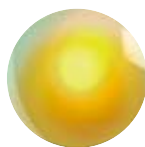

PRIZM™ BRONZE POLARIZED*

PRIZM™ TUNGSTEN POLARIZED*

PRIZM™ RUBY POLARIZED*

PRIZM™ 24K POLARIZED*

- Advancer™ nosebridge positions the frame to block light while opening airflow to combat fogging and overheating
- Increased FOV
- Full frame design allows for Rx compatibility
- Interchangeable temple lengths for improved helmet compatibility
- Durability and all-day comfort of lightweight O Matter™ frame material
- No-slip Unobtainium® nosepads: Increase grip with perspiration
- Three-Point Fit: Comfort and performance that holds lenses in precise optical alignment
- Frame suitable for medium to large faces
- Available with Prizm™ lenses to enhance color, contrast and detail for an optimized

experience

- HDPolarized: Minimizes glare via technology that produces a comprehensive, single-layered lens (optional)
- Plutonite® lens material offers top UV Protection filtering 100% of all UVA, UVB up to 400nm and some of harmful blue light
- Glare reduction and tuned light transmission of Iridium® lens coating
- Optimal precision and impact resistance that meet or exceed ANSI Z80.3 optical and impact standards
- HDO® Optics for crystal clear vision and impact resistance
- Available with Oakley Authentic Prescription Lenses

009343 M2 FRAME™ XL

The XL lens shape is the latest evolution of M2, and it takes performance even further with an enhanced vertical dimension. Even when your head is subtly tilted downward, things that matter will still be in your field of view and the slightly taller design also enhances performance in sports and activities where things above need careful attention

FROGSKINS® GRIPS COLLECTION - LIMITED EDITION

This is your chance to own a piece of history, a special edition of classic sunglasses that celebrate the heritage of innovation. Frogskins were our very first dual-lens eyewear, and the vintage design evolved soon after the invention that started Oakley, a motorcycle handgrip. These eyewear editions honor The Grip and Oakley Frogskins with special coloration, and select designs carry the triple-stripe pattern of our goggle straps.

LATCH GRID COLLECTION

The artists of Oakley design took the graphics developed for the Oakley Latch apparel collection and created a special sunglass collection with the namesake eyewear. Each frame is nuanced with manufacturing information on the temple, and a perforated grid highlights the hinge mechanism that lets you latch these sunglasses to your shirt.

FIRE AND ICE COLLECTION

Along with premium Prizm™ optics, the black frames of the Fire and Ice Collection carry hits of color beyond their icons and logos. We accented the lenses with Alt-Iridium hues inspired by flames and frost, so whether you're bringing the heat or just chilling out, you'll have a look of true originality.

MIDNIGHT COLLECTION

We're a company that specializes in taming the sun, but sometimes we're inspired by the night. Shades of darkness in the Oakley Midnight Collection are accented with art that captures the mystery of movement in shadows. The Matte Black and Polished Black frames are paired with Prizm lenses that fine tune individual colors, enhancing detail in the hours of light.

PRIZM™ DEEP WATER POLARIZED COLLECTION

Utilizing Prizm™ lens technology to fine tune color for water environments, we engineered separate Prizm™ lenses to enhance contrast and visibility for fishing in shallow water and deep water. Both are enhanced with HDPolarized filtering that blocks 99% of reflected glare without the haze or visual distortion that can come with conventional polarized lenses. From boating and sailing to paddleboarding and kayaking, Prizm™ Water lenses are ideal for any water activity, and you'll see the difference in performance and comfort.

PRIZM™ DAILY POLARIZED COLLECTION

With ordinary sunglass lenses, landscapes look washed out, dull or flat. The view is better with Prizm™ lenses because the technology enhances all colors in an environment, making dull colors warm and rich for a more pleasing visual experience. Great for all-day wear, Prizm™ Daily lenses improve comfort in varying light conditions, and they feature premium HDPolarized optics that cut glare and keep your eyes comfortable when you're driving.

PRIZM™ FIELD COLLECTION

With conventional sunglass lenses, dull colors mean less contrast, and that makes it more difficult to track a ball in the sky or on the field. By making critical colors more vivid, Prizm™ Field lenses accentuate the background to enhance contrast. That means the ball stands out against the blue of the sky, the green of the grass and the brown of the dirt.

PRIZM™ ROAD COLLECTION

Endurance athletes have seen it all, and with inferior lenses, they haven't seen it well. Dirt, cracks, sealant and other hazards pop up out of nowhere and force them to make split-second decisions. When the eyes aren't giving the brain enough information, reaction time suffers. Prizm™ Road lenses help endurance athletes spot subtle changes in the texture of road surfaces, and see hazards more easily so they can react faster and perform at their best.

PRIZM™ TRAIL COLLECTION

Dirt can be hard-packed, loose or granular, and to perform with confidence, endurance athletes need to see subtle variations in texture. They also need to quickly spot sand, rocks, roots and other transitions in shade and bright light. Ordinary sunglass lenses aren't good enough. Athletes need lenses that specialize in the trail environment. Whether you're scorching trails on your bike or running through rocky terrain in a wide range of light conditions, Prizm™ Trail lenses are the best choice because they preserve contrast to optimize performance.

PRIZM™ GOLF COLLECTION

To play golf well, you have to do more than just read the green. You need to spot the transitions between the fairway, fringe and rough. You have to gauge distance with accuracy, and you need a good eye for grass textures. Prizm™ golf lenses help golfers with all these things and more. The separation of colors gives you more depth cues to gauge distance for wedge shots, and when you're on the green, you can easily differentiate grass conditions and grain direction to predict ball speed.

PRIZM™ SNOW COLLECTION

Dirt can be hard-packed, loose or granular, and to perform with confidence, endurance athletes need to see subtle variations in texture. They also need to quickly spot sand, rocks, roots and other transitions in shade and bright light. Ordinary sunglass lenses aren't good enough. Athletes need lenses that specialize in the trail environment. Whether you're scorching trails on your bike or running through rocky terrain in a wide range of light conditions, Prizm™ Trail lenses are the best choice because they preserve contrast to optimize performance.

- Integrated side shields to combat backside glare
- Hat compatible frame and temple design
- Stress resistant metal frame accents
- Durability and all-day comfort of lightweight O Matter™ frame material and durable C5 metal
- No-slip Unobtainium® nose pads: Increase grip with perspiration
- Three-Point Fit: Comfort and performance that holds lenses in precise optical alignment
- Available with Prizm™ lenses to enhance color, contrast and detail for an optimized experience
- Plutonite® lens material offers top UV Protection filtering 100% of all UVA, UVB up to 400nm and some of harmful blue light
- Glare reduction and tuned light transmission of Iridium® lens coating
- Optimal precision and impact resistance that meet or exceed ANSI Z80.3 optical and impact standards
- HDO® Optics for crystal clear vision and impact resistance
- Vented lens for airflow circulation to prevent fogging

009362 REVERIE

Oakley Reverie keeps up with your active life while earning major style points. We dreamed up this ultra-lightweight design to deliver all-day comfort and complement a variety of face shapes. The sculptural geometry of Oakley Reverie creates a sleek silhouette that's versatile enough to hit the streets for a run then meet up with friends without skipping a beat.

- Three-Point Fit: Comfort and performance that holds lenses in precise optical alignment
- Durability and all-day comfort of lightweight, stress-resistant O Matter™ frame material
- Unobtainium® earsocks and nosebombs increase grip with perspiration for a no slip grip without compromising on style.
- Frame suitable for small to medium faces
- Available with Prizm™ lenses to enhance color, contrast and detail for an optimized experience
- HDPolarized: Minimized glare via technology that produces the best polarized lenses on the planet (optional)
- UV protection of Plutonite® lens that filters out 100% of UVA / UVB / UVC & harmful blue light up to 400nm
- Glare reduction and tuned light transmission of Iridium® lens coating (optional)
- Optimal precision and impact resistance that meet or exceed ANSI Z80.3 optical and basic impact standards
- Maximum clarity at all angles of vision with patented XYZ Optics®
- Available with Prizm™ lenses to enhance color, contrast and detail for an optimized experience

004129 SPLIT TIME

Split Time was designed for every day appeal but with features for on the go. The temples were designed to fit seamlessly while wearing a hat and the no-slip Unobtainium® nosepiece keeps them comfortably in place.
