myDockLink™

myDockLink™ is a revolutionary smartphone app designed to streamline and enhance your boating experience. With its user-friendly interface and advanced technology, myDockLink™ allows you to operate your boat lift directly from your phone effortlessly. Whether you're at the dock or away from your boat, this innovative app provides unparalleled convenience by enabling you to raise and lower your boat with just a few taps on your smartphone.

**Requires Wi-Fi connection and myDockLink™ app subscription.*
