

WARM GOLDEN BLONDE

ARTIST: CAITLYNN DEMETRICIAN

IG @hair_by_caitie

MODEL: ASHLEY

FORMULAS

STARTING CANVAS LEVEL: 7

Formula 1:

1 scoop of Synchronlift® +
5 volume Paul Mitchell® Cream
Developer 2 oz. (60 g/ml)

Formula 3:

the color XG® 7BG (7/73) 2 oz. (60 g/ml) +
10 volume Paul Mitchell®
Cream Developer 2 oz. (60 g/ml)

Formula 2:

1 scoop of Synchronlift® +
10 volume Paul Mitchell®
Cream Developer 2 oz. (60 g/ml)

TECHNIQUE

1. Create a diamond on top of the head leaving a 2" section around the front hair line.
2. Behind the diamond section, create a small mohawk section in the crown.
3. Starting in the back mohawk section, take ¼" sections and weave off the top of the section using Formula 1.
4. Once this panel is complete, move to the 2" section in the front hairline. Use ⅛" sections and weave off the top of the section throughout the front hairline using Formula 1.

TIP: If less blonde is desired, continue using ¼" sections.

5. Move to the diamond section and split down the middle for control. Take ¼" horizontal-diagonal sections and weave off the top of the section using Formula 2.

TIP: Staggering developers allows for even lightening as you work throughout the head.

6. Once all foils are placed in hair, use Formula 3 as a lowlight and apply between every other foil.
7. Process for 25 minutes and follow with Color Protect® Post Color Shampoo and condition.
