STEP 5

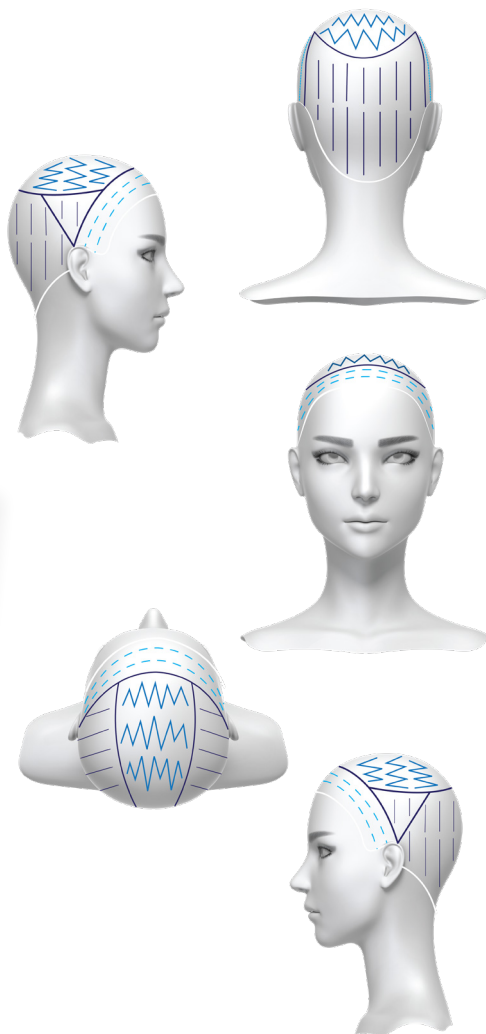

STEP 5

1. Begin by sectioning out the front hairline.
2. Behind the hairline section, create a Mohawk segment following the parietal ridge to the crown.
3. Move to the left side and create a triangle segment that meets at the top of the ear and at the parietal ridge.
4. Mirror triangle segment on right side.
5. Begin in the hairline using a Babylight technique and apply Formula 1.
6. Move to the back of head. Begin in nape by taking ½" sections. Apply Formula 2 with heavy saturation. Continue up the head taking ½" sections and applying Formula 2.
7. Move to triangle segment and continue to take ½" sections. Apply Formula 2. Mirror on the opposite side.
8. Move to the Mohawk segment. Begin by using the Teasy Highlight technique and apply Formula 2.
9. Allow to process until desired lightness is achieved.
10. Shampoo with Paul Mitchell® Color Protect® Post Color Shampoo. Rinse and towel-dry.
11. Apply blonde refinement Formula 2 on lightened hair, avoiding the hairline. Process for 15 minutes. Once 15 minutes has been reached, apply Formula 1 to hairline. Process for 5 minutes. Formula 2 will process a total of 20 minutes.
12. Rinse and shampoo with Paul Mitchell® Color Protect® Post Color Shampoo. Condition with your favorite Paul Mitchell® conditioner.
