8N (8/0)  
1.5 oz. (45 g/ml)

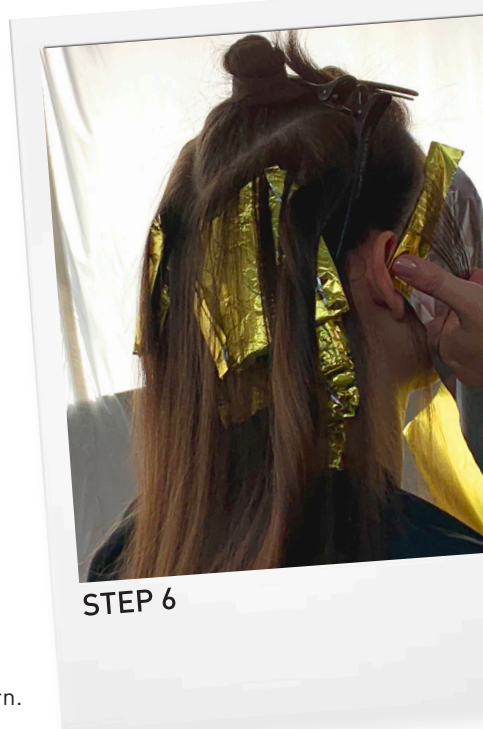

Paul Mitchell®  
Processing Liquid  
2.5 oz. (75 g/ml)

STEP 5

## COLOR

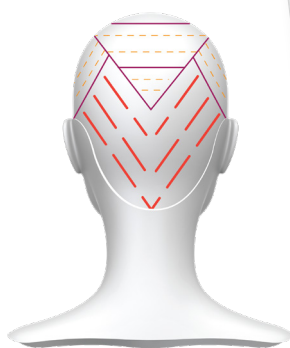

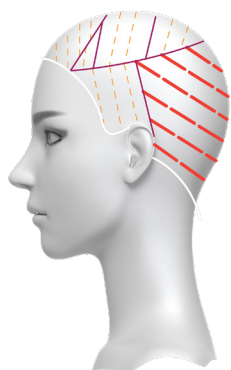

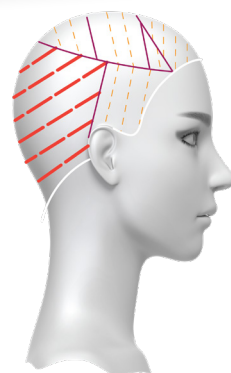

1. Section out the fringe and clip away. Create a Mohawk segment from the back of the fringe to the occipital bone.
2. Create a vertical section from the Mohawk section to right behind the ear on the left side.
3. Mirror on the right side.
4. Move to the back of the head. From the crown, take a diagonal section to the occipital bone. Mirror on the opposite side.
5. Begin in the back of the head taking  $\frac{1}{2}$ " diagonal sections. Weave off the top of the section taking a wider weave pattern. Apply Formula 1.
6. Move to side panel. Continue to take diagonal sections. Switch to a new technique using a 2:1 ratio—two Babylights to one slice, applying Formula 1.
7. Mirror on the opposite side keeping with the 2:1 pattern.
8. Move to the fringe segment and use the Babylight technique. Apply Formula 1.
9. Move to the Mohawk segment and use the 2:1 ratio of Babylights to slice, applying Formula 1.
10. Process to level 8 or 9. Rinse and shampoo with Paul Mitchell® Color Protect® Post Color Shampoo and towel-dry.
11. Apply blonde refinement Formula 1 on pre-lightened hair. Allow to process for up to 20 minutes.
12. Rinse lightly and shampoo with Paul Mitchell® Color Protect® Post Color Shampoo. Condition with your favorite Paul Mitchell® conditioner.

STEP 8

STEP 9

## TIPS

Keep a watchful eye on refinement, as porosity will determine the length of time left on the hair.
