

MICHAEL SPIERS

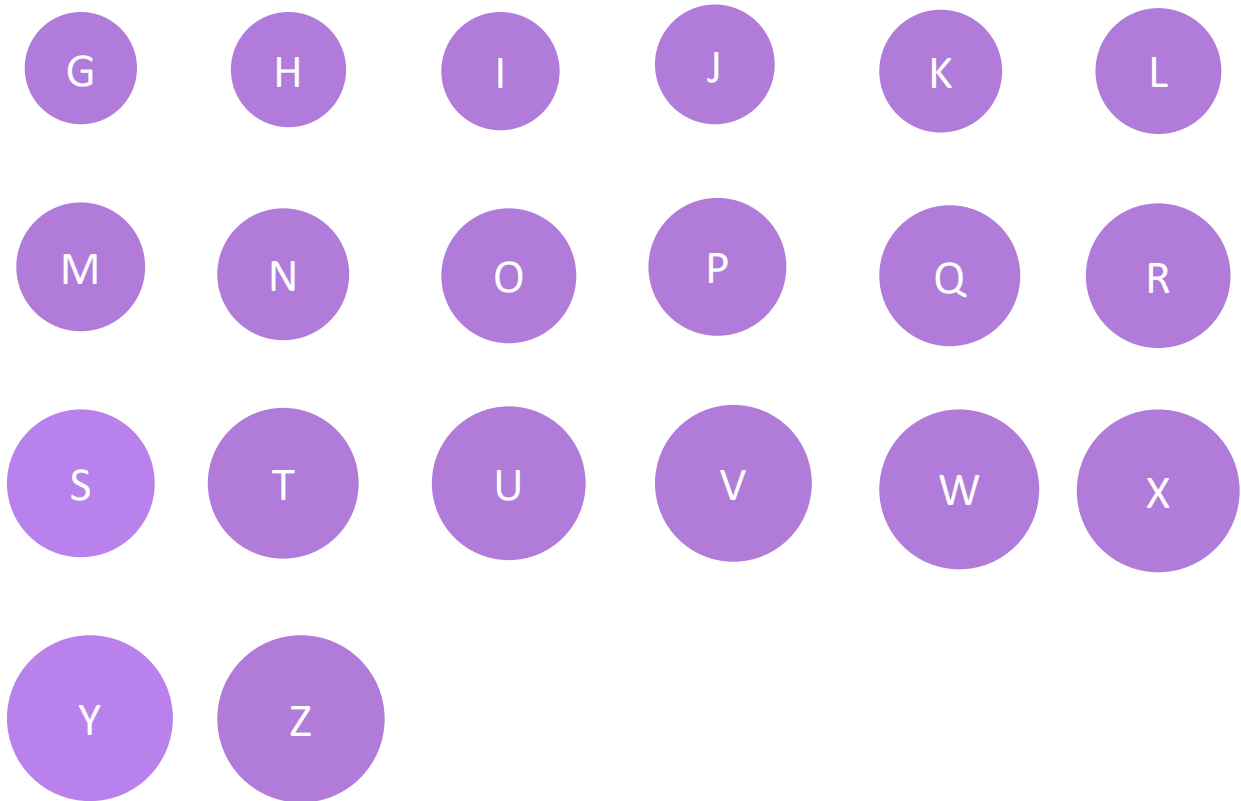

If you are unable to visit one of our stores in Truro, Plymouth, Exeter or Taunton to have your finger measured, this ring sizer is designed to give you a guide as to the correct size.

Please note, if you are choosing a ring that needs to be specially made for you, it is highly recommended that you have your finger measured professionally in-store. It might not be possible to re-size all specially ordered rings and re-sizing could carry additional charges or not be possible.

1. Print this page at 100%
2. Check the print size – the line below should measure 5cm.

3. Place a ring that fits you over a circle below so that it completely fills the inside of your ring without overlapping.
4. Your ring size is the letter shown in the circle.

PLEASE NOTE: When printing this document, please do not use print options such as 'Shrink oversized pages to paper size', 'Shrink to fit', 'Expand small pages to paper size', 'Expand to fit' or 'Scale to fit' - you must print this page at 100% for it to be of use.
