

1. Gather your material.

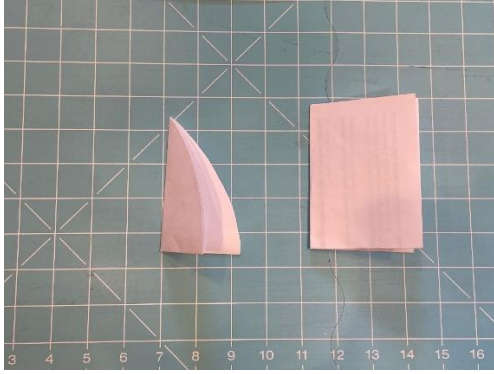

2. Make a template for your desired size of the bean bag chair. We made a rectangle 24" x 54" by taping big pieces of paper together and then cut it into a football shape. Here's how you do it!
3. The left side is the football shape. The right side is how you start off with a rectangle.

4. Fold the paper up.

5. Fold the paper to the right. Then cut from the bottom right corner to the top left corner in a curved line to make the football shape.

6. Once you have your big template, lay it out on your hides and cut out 6 football shapes.

7. Lay two pieces grain side to grain side and then sew half of it, from one tip to the other.

- When you've finished, flip it right side out where the grain sides are facing out. Then place the third piece on it and sew grain side to grain side. Then you'll have half of your chair done!

- For the fourth and fifth pieces, you'll want to do exactly like you did for the first two pieces but also sew in your zipper.

- Once you've sewn in your zipper you can add the 6<sup>th</sup> piece by flipping the 4<sup>th</sup> and 5<sup>th</sup> pieces right side out and sewing the 6<sup>th</sup> piece on, grain side to grain side. Now you'll have two halves. Take both halves and place them grain side to grain side and sew the perimeter. Don't forget to unzip the zipper so that you can flip it right side out.

11. If you decide to make a fabric lining, just repeat all the steps.

12. Fill the bean bag liner and then you have your chair!
