

HOW TO BURNISH EDGES

Burnishing consists of sealing edges with product by using hand tools and burnishing agents. The burnishing process gives smooth and clean edges to any veg-tan project.

1. Rub emery board gently across the edges so that the leather is even and smooth. Dust off. (Figure 1)

2. Use a cotton swab to gently seal the edges with gum tragacanth burnishing agent. Let air dry. (Figure 2)

3. Burnish edges with a wood slicker. (Figure 3)
4. Repeat steps 2 and 3 until you reach desired outcome.
