Instructions for safe use

To avoid malfunction or damage to your Neos SmartCam please observe the following:

- Do not expose it to water or moisture whilst in operation.
- Do not expose it to heat from any source; the Neos SmartCam is designed for reliable operation at normal ambient room temperatures.
- No user-serviceable parts inside. Refer all servicing to qualified service personnel.

Warnings

This product is designed to be used with the supplied power supply. It shall only be connected to an external power supply with a SELV output rated at 5V dc and a maximum current of 1000mA. Any external power supply used with the Neos SmartCam shall be certified as a LIMITED POWER SOURCE and comply with relevant regulations and standards applicable in the country of intended use.
