reddot award 2019 best of the best

MOMODESIGN Style Centre has won the RED DOT Award:Product Design 2019 with the jet helmet Aero receiving the Red Dot - Best of the Best, the top distinction in the competition.

The Red Dot Award: Product Design is one of the world's largest design competitions. In 2019, designers and manufacturers from 55 countries entered more than 5,500 products in the competition. Only 1.5% of the objects entered won a Red Dot: Best of the Best.

This award represents an important success for the MOMODESIGN Style Center that with the Jet AERO, introduces a new generation of motorbike helmets, exceeding its principles and combining the innovative design with high functionality.

A design oriented to functionality and safety where connectivity, great aerodynamics and temperature control become the strengths of this new motorcycle helmet.

Premio Compasso d'Oro ADI

The International Jury of the XXVI Premio Compasso d'Oro ADI 2020 has assigned the most prestigious award for the Italian design, the Premio Compasso d'Oro ADI, to MOMODESIGN for the AERO project. The prestigious award was bestowed by the international jury at the 26th edition of the event.

Established in 1954, the Premio Compasso d'Oro ADI is the oldest and furthermore the most important design award in the world. Nearly 300 winning projects in more than 50 years, together with nearly 2000 selected ones with the *Menzione Onorabile*.

AERO is the product of MOMODESIGN's vision, one that projects the brand into the future of mobility with a motorcycle helmet equipped with great aerodynamics, an innovative patented visor movement and an intelligent ventilation system.

FGTR

RANGE

Unique shape, elegant core, outstanding design and technical highlights. FGTR was born in 2000 as the Urban Demi-Jet Helmet. Historically inspired by the helmets of helicopter pilots it became a cultural phenomenon, a conjuncture between Momodesign's racing past and its present as a design brand that is 100% Italian. This is the best product to exemplify Momodesign's reinterpretation of an object designed for daily use.

FGTR

The new FGTR limited edition has the shell in phantom grey glossy in contrast with the iridescent logo. The helmet has been further customized with the inner padding in real leather. Brushed metal screw; Anti-scratch visor UV400 with carbon fiber support. Chinstrap with micrometric buckle; Removable and washable inner padding with high sweat absorption fabric and mesh fabric net with silver ion treatment for an effective bacteria-static action.

RESEARCH INNOVATION TECHNOLOGY

The first graphene helmet ever made, result of the material quality, production process and reached performances. The Graphene due to the material's particular properties, is able to distribute the force of an impact better than any other material. Graphene is also an excellent conductor of heat. This additional property has enabled us to create an avant-garde helmet whose high impact resistance is maintained even under conditions of extreme ambient temperatures.

Due to graphene's capacity for dissipating heat, the helmet's thermoregulatory outer shell allows the wearer to feel comfortable even during direct exposure to the sun.

The project has come about thanks to the close and prestigious partnership between IIT's Graphene Labs and Momodesign Style Center. Research, innovation and use of two-dimensional materials. A new era of Momodesign helmets.

IN COLLABORATION WITH:

FGTR

EVO

ABS demi jet shell in two sizes. Removable and washable inner padding with high sweat absorption fabric and mesh fabric net with silver ion treatment for an effective bacteria-static action. Removable and washable cheek pads; Brushed metal screw; Anti-scratch visor UV400 with carbon fiber support; Dark sun visor; Chinstrap with micrometric buckle.

TWO VISORS

An adjustable external visor anti-scratch UV 400 in optical Glass with support in carbon fiber and integrated dark sun visor.

Removable inner padding in anti-bacteriological memory fabric with a more comfortable fit.

INNER PADDING

INSPIRATION

The inspiration for the shape comes from military helicopterist helmets with their rounded visors. "FGTR" has special soft touch paint, hand-sewn leather and carbon fiber details: a balanced mix of Italian style, technology and design.

REVERSED T LOGO

The upside-down T logo was a winning concept born to go against the trend and the style of the beginning of 21st century.

FGTR HERITAGE

It was 2000 when MOMODESIGN designed FGTR, its first demi-jet helmet, destined to become the most coveted urban helmet, an icon of the time. FGTR HERITAGE is the new capsule that celebrates the demi jet helmet that made the history of the company, a symbol of the brand's tradition and evolution.

A restyling of the first four iconic colors that enhances the originality of its design by enriching it with graphics with the Heritage 20 inscription that tells a contemporary story. Silver, black, blue and yellow, bold colors, as well as the personality of this helmet, with the graphics of the logo and of the 20 in black and yellow personalize the line. The stitched edges in leather-colored leather complete the design, reflecting the strong link between the brand, craftsmanship and attention to detail. Brushed metal screw. Anti-scratch visor UV400 with carbon fiber support. Chinstrap with micrometric buckle. Inner padding with high sweat absorption fabric and mesh fabric net with silver ion treatment for an effective bacteria-static action.
