

HOW TO USE EARBUDS AFTER PAIRING

1. **Power on:** The headset is taken out from the charging case and automatically powered on. In the case of the earbuds do not power on automatically, you can press the button on the earbuds to power on.

2. **Power off:** Put the earbuds into the charging case close the cover, and the earbuds will automatically power off (When the charging box is powered). You can also press the button on the earbuds to power off.

3. **Pause & Play:** In the playback state, short press the earbuds button to pause, press again to resume playback.

4. **Call Answering:** There is a call incoming, short press the button on the surface of the earbuds to answer.

5. **Call rejection:** If there is a call, press and hold the button on the surface of the earbuds for two seconds to reject it.

CHARGING THE EARBUDS

Place the two earbuds into the charging case, the red light on the top of the earbuds will be on, indicating that the earbuds are charging. After the charging is completed,the blue light is on for 10 minutes and then turned off. If the red light on the earbuds is not lit, and the light on the side of the charging case is not flashing, you need to charge the charging case with the the included micro usb cable.

CHARGING THE CASE

Plug in the included micro USB charging cable into the back of the charging case and the USB end into a USB Wall adapter (not included) or into a computer USB port. The light at the bottom of the charging case will flash, and the red light will be on after full.
