ABOUT NORTH OF GREY

Designer Caroline Groeneveld, originally from Liverpool, adopted Detroit as a second home three decades ago. Just as Detroiters never truly leave the D, Groeneveld never left Liverpool. Her unique handbags reflect her loyalty to and love for both the USA and the UK.

Caroline Groeneveld | Founder, Creative Director

The color palette celebrates vibrant reds, whites, and blues. The designs are a salute to hard work. The bags are made in Italy from the finest Italian leather. They are truly an internationally inspired adventure.

“Functional bags for fashion-forward women who need everything at their hip.”

A businesswoman and mother of triplets, Groeneveld experienced a series of events that led her to a life-changing decision. She left her successful interior design business to launch a new career.

Knowing that smart design—whether an interior or a handbag should enhance lives, she

began her journey toward North of Grey. The result is a line of thoughtfully and architecturally designed handbags for high-performing women.
