

ENHANCE LITERACY

Comprehension, fluency and language development.

Enhance Literacy is a two-part programme designed to boost your students' literacy progress.

The kits support teachers to teach explicit comprehension and fluency strategies, hold meaningful discussions about the text, and help struggling readers and ELL students develop strong language skills.

All of the texts in each kit are high-interest, cross-curricular, and have incredible opportunities for language development. Texts can be taught strategy-by-strategy, or gradually from level L to level V.

Enhance Literacy includes digital scaffolds for 21st century learning, but instruction can be entirely offline.

The kits work best when used simultaneously, but can be used alone. Order both for the special price of \$600.

Modelled Reading Kit \$400ea

The Modeled Reading Kit supports deep comprehension, explicit strategies instruction, and meaningful learning conversations.

- 60 texts from L-V for Modelled Reading
