Vineyard Notes:

SLO Down Wines started with 93 cases and a dream. Almost a decade later, we're still shaking things up and blurring the line between what is and isn't socially acceptable. We couldn't do this without people like you who are tired of the same old wine scene and just want to drink for the pleasure of it, so to them we say: How are you sober enough to read this? If you really want to find out what SLO Down is all about, watch our videos that in no way has some disturbing parts.
