

# Make Your Own Papal Picado

You need: different coloured tissue paper, child friendly scissors, tape and string

## Instructions:

1. Cut tissue paper into rectangles. A larger rectangle ( 5 inches x 7 inches) will be easier for your little one to cut.

2. Choose one rectangle and fold in half. Then fold in half again.

3. Cut designs into the folded tissue paper. You can make any design you choose.

4. Unfold your paper to see what your design looks like.

5. Keep folding and cutting rectangles till you have enough for a garland.

6. Stick the different rectangles on a string with tape and hang to decorate your house.
