

# WHICH SIDE OF YOUR LAPTOP DO YOU WANT TO ATTACH YOUR MOUNT?

This is the RIGHT-SIDE attachment guide. Flip paper over for left-side attachment.

Use other side  
for left-side attachment

LEFT SIDE ATTACHMENT

RIGHT SIDE ATTACHMENT

1

**CLOSE LAPTOP:** Make sure your laptop is closed and that the laptop opening is facing you.

2

**ALIGN THIS PAPER:** Place this paper on top of your laptop and move it all the way to the right side and center it. The right edge of this paper should be aligned with the right edge of your laptop.

This is how the mount  
will look once attached

3

**PLACE METAL PLATE:** Peel the backing off of the metal plate and place ONE (1) metal plate in the open space. Make sure to align the SideTrak logo in the bottom right corner. Apply light pressure for 10 seconds and then remove this paper.

Place metal plate here ↓

4

**PLACE DEVICE:** Before attaching the mount to your laptop, place your device in the clamp. Loosen the knobs to widen the clamp. Then, place your device in the clamp and tighten the knobs to secure your device in place.

5

**ATTACH MOUNT:** Clip your mount to the metal plate on your laptop. Wiggle the mounting frame and if it pops off then it is not fully clicked in. You will hear a loud click when it is properly placed. Now you are ready to enjoy your new Swivel mount!

Align this side with the right side edge of your laptop

SideTrak logo should be in this corner
