⑨	USB-C 3.0	USB-C type power only

## CONNECTION

Check the USB-C ports on your laptop for the symbols shown below to ensure you have a USB-C port that can transmit both power and data.

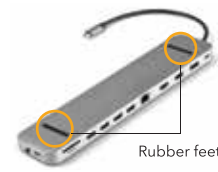

All USB-C ports on an Apple laptop are compatible, even if they don't show any symbols.

This dock can transmit data for 2 HD monitors + accessories OR 1 4K monitor + accessories. Apple laptops don't support MST and can only do 1 monitor at a time, whether it's HD or 4K.

## FEATURES

This docking station can be used as a wedge between your laptop and the desk to help airflow to your laptop.

Simply prop your laptop on the rubber feet on top of the docking station. The rubber feet will prevent the laptop from sliding.

## FAQ

### Why is there no video output?

- Make sure the USB-C port on your laptop can support video output. A USB-C port with the thunderbolt symbol.
