Eliminate Odors At The Source!

Air Shield (Gel)

Uses

- Odor Elimination
- Odor Prevention
- Air Sanitation
- Repel Fruit Flies

Ideal For

- Pet Odors
- Boats
- RVs
- Marijuana
- Bathroom
- Fish Odors
- Fridge
- Kitchen
- Trash Areas
- Cigarette
- And More

Directions

1 Remove lid.

2 Open pack & pour powder into cup.

3 Add 5 oz. of water & stir.

4 Place in desired area & wait 5 min for gel to set.*

Suitable For: Any area between 100-400 square feet. For best results use indoors or enclosed areas and avoid direct sunlight. Ideal for living room, bathroom, dog house, cat litter area, refrigerator, kitchen, fish cooler, boats, RVs, & any other similar areas.

Storage: Keep unused Air Shield (Gel) inside an airtight bag or container. Keep in a dry & room temperature location. Avoid exposure to sunlight.

Duration: Air Shield (Gel) powder creates 1 gel mixture. Each Mixture is effective for up to 1 month. Clean container for reuse. Unused Air Shield will last up to 1 year with proper storage.

Caution: Keep out of reach of children and pets. Do not swallow. Avoid contact with eyes. If irritation persists or swallowed contact physician.

May cause irritation to those with severe asthma, MCS or COPD.

Additional Information:* Initial gel mixture may cause chlorine smell. If sensitive to smell, leave Air Shield in large open area for 24-48 hours or until smell dissipates. Gel will have very strong chlorine smell if less water than directed is used. Gel will not form with excess water. If Air Shield gel does not form, leave out in open space and allow water to evaporate for gel to form.

Active Ingredient:
Sodium Chlorite.....20%
Other Ingredients: ...80%
Total:.....100%

Air Shocker (Gas)
