

Sublisplash®

Colour in Motion

Swaping instruction For the Ricoh SG3110DN / SG7100DN and Virtuoso SG400 / SG800 For filling with Sublisplash® sublimation ink

To switch from sublimation inks of other producers to Sublisplash® sublimation ink follow these instructions:

Please follow the process step by step and don't differ from it, to not damage your printer.

1. Exchange your old cartridges with new Sublisplash® cartridges.
2. Hold the arrow-buttons (up and down) for 5 seconds and immediately after press the #-button.

This menu should come up.

3. Press the down arrow-button once to get to the "Engine Maint." option.

This menu should come up.

4. Press the #-button.

5. Enter the following number: 3008002

With the arrow-buttons you can enter the number.

With the #-button you can confirm a number and the cursor will move to the right onto the next digit.

6. Afterwards press the #-button to confirm the entered number.

Your screen should look like this.

Check the entered number 3008002.

If it isn't correct, you can press the left (back-)button to get to the previous screen and to change the number.

If the number is correct, confirm by pressing the #-button.

Afterwards confirm this notification by pressing the #-button.

The screen returns to "Engine Maint.".

Shut down the printer.

Afterwards turn the printer on again and the ink loading routine will be started. This will take about 6 minutes.

Repeat the procedure from step 2. Afterwards the Sublisplash® sublimation ink filled printer is ready to go.

The filling capacity of the cartridge set is enough for the whole procedure.
