

Fume Extractor FE-440CFM

Multi Filter Air Extractor for Co2 laser cutting/engraving

Features:

- Multiple filter design: Fire protection net, pre-filter, PP medium filter, glass fiber filter, & activated carbon filter
- All metal frame construction to resist impact and vibration.
- Remote Control Available.
- Vortex fan design for large air volume, high suction, and high efficiency.
- Brushless motor for stable performance and long service life.
- Casters on bottom for easy movement.
- All filter elements are replaceable.
- **Warranty:** One Year on all parts excluding filtration media

Specifications:

- **Air Inlet Interface:** Ø90mm
- **Input Voltage:** AC110V/220V
- **Power:** 700W
- **Filtering Effect:** 0.3µm 99.97%
- **Sound Rating:** < 63 dB
- **System Flow:** 750 m³/h
- **Dimensions:** 22" x 17" x 40" (550mm x 440mm x 1,035mm)
- **Weight** 154lbs (70kg)
