

THE 2023 FLIGHT GUIDE

AMATEUR JONATHAN EDITION

HEY YOU,
I'm Jonathan and I'm not very good at disc golf. Luckily there's a lot of videos on Youtube showing exactly that. However for me disc golf is more about having a great time with lovely people and just occasionally throwing a very nice shot that feels good in the belly.

STOP BUYING ALL THE DISCS!
If you focus on getting to know your discs instead of buying ALL of the drivers, then it gets a little bit easier to play. Also good for the ol' wallet.

HAVE FUN, BUT THROW FAR!
I would say to keep disc golf fun. At all costs. It's your time to recharge! Try not to make it into something stressful (including the putting). As long as you throw far and cool - then you're a winner!

I'M MOST EXCITED ...
... about this new release! My hand likes it a LOT due to the shape and the feel of the plastic. Also the overstability makes it really fun to use for approach shots - which is my new favorite thing!

YOUR BEST FRIEND!
A calm summer evening. The sun is about to set over your favorite course. Good company. Good fun. No worries, stress or OB. For me the Fuse captures the best parts of disc golf.
