

MINDME DOOR & WINDOW ALARM

MindMe Door & Window Alarm Overview

The MindMe Door & Window Alarm detects when either a door or window has been opened, providing real-time monitoring for people living with Dementia, Elders, People with Disabilities, Children, and Home Security.

MindMe Door & Window Alarm Features

Non permanent Alarm system

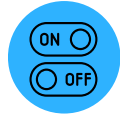

Mobile App (iOS & Android)

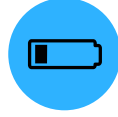

WIFI connectivity

Remote Setup via free mobile APP

Turn alarm On/Off remotely

Low battery alert

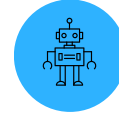

Real time remote alarm system

Multifunctional security for doors, windows, cupboards

Powered by AAA batteries

Compatible with Alexa/Google Assistant

Over the Air (OTA) firmware upgrade supported

HOW IT WORKS

Door or window opens and the magnetic connection severs

A pop up message and audible alarm tone automatically alerts the pre-nominated mobile phone
