## Remote Visual Inspection (RVI)

Pearpoint

## Pearpoint Flexiprobe P340 Push Rod System

Pine Item #54235

### DESCRIPTION:

At the heart of the P340 flexiprobe system is the ruggedized and weatherproofed P340USB flexiprobe controller, which records high quality digital video or images with a single button press, and displays them on an ultra-bright 8", TFT screen. Advanced digital capabilities mean that users can zoom, pan and rotate images during recording to focus in on problem areas. The P340 flexiprobe can be adapted to any inspection requirement. A choice of 1", (25mm) or 2", (50mm), ultra-durable cameras can be mounted on range of 5 different reels from the extra-flexible 100' (30m) P341 Plumbers reel to the 500' (150m) P343 reel designed to push for longer distances. The 2" (50mm) camera is self leveling, keeping the video picture upright when navigating a pipe.

Compact reel designs ensure that the systems are fully transportable, and protected in transit. A range of compatible sondes, skids, brushes and accessories completes the package, allowing inspection of pipes up to 9", (230mm) in diameter.

### FEATURES:

- One-touch recording to USB memory sticks and Compact Flash cards
- Outstanding picture quality from toughened cameras
- Super-flexible Plumbers system for residential and commercial plumbing
- High quality digital video with digital pan and zoom
- Inspection reports prepared on-site with integrated report writer
- Weatherproof robust and truly portable
