Sample Pro XD Low Flow Pneumatic Groundwater Sampling Pump

Pine Item #54957

DESCRIPTION:

The Sample Pro XD portable pump combines the unparalleled sample accuracy and high reliability of a bladder pump in an easy-to-use design. It runs cool and can run dry without damage, and can be operated using any QED MicroPurge controller options - 12-volt integral compressor, a Honda-powered gasoline-driven compressor, an external compressed air cylinder, or a lightweight backpack with integral CO2 cylinder. The Sample Pro XD pump's reliability and low maintenance make it more economical to use. Its twist-open design makes it easy to change the disposable bladder in seconds. The compact 14.75" length fits in a bucket for easy cleaning between uses.

FEATURES:

- Low-flow sampling
- Disposable sampling bladder
- Stainless steel construction
- Quick, 1/4 turn tool-less disassembly
- Interchangeable push-to-lock tubing connection points

APPLICATIONS:

- Minimal turbidity and well surge during sample collection
- Easy to replace bladder or fast field cleaning
- Robust construction is resistant to most leachate and groundwater chemicals
- Fast and easy service for quick turn-around between sample wells
